Paste Company Declares Bankruptcy
All Gummed Up
Reconsideration of this report
by the Board of Directors of the
company was held yesterday by
George L. Upton, president, and
other members of the board. The
company's financial condition is
described as "gummed up" and
it is expected that the company
will be liquidated.

T. W. Wood of Pasadena and Mrs. Poole
Photographer and his wife
left on a journey to the
Sierra Nevada mountains
last night. Mr. Wood came to
Los Angeles in 1924 when he
was first met by the police.
Wood is a well-known photo-
grapher and has been in the
business for many years. He
has a large studio in Pasadena
and is well known in the
photographic world.

DICK WICK HALL STILL IN SERIOUS CONDITION
Dick Wick Hall, who was
injured in a fire at the
Hotel Normandie, is still in
serious condition. He was
admitted to the hospital on
April 18 and has not yet
been able to get up. His
condition is expected to
improve, but it is still
uncertain when he will be
able to leave the hospital.

TENTATIVE AGREEMENT ON FRENCH DEBTS REACHED

Mellon and Berenger Gain Accord; Further Developments Hinge on Italian Pact Approval

(EXCLUSIVE DISPATCH)
WASHINGTON, April 20.—Although members of the American Foreign Debt Funding Commission refused today to discuss the matter, it is learned on reliable authority that a tentative agreement has been reached by Secretary Mellon and Ambassador Berenger of France for a settlement of the French debt. If the Italian debt settlement is ratified tomorrow by the Senate the American commission is expected to be called in session Saturday to consider the agreement reached.

According to the report now current, the French have agreed to a settlement by which France will pay its debt on a basis amounting, with the usual leniency accorded on early payments and on interest, to more than 80 per cent of the entire debt.

It will be recalled that Italy will pay on the basis of 27 per cent, Great Britain 10 per cent and Belgium 20 per cent. This figure also compares favorably with the original Caillaux proposal which offered to pay only 40 per cent, whereas the American commission demanded 80 per cent.

The Mellon-Berenger agreement therefore marks a compromise. Furthermore the French have withdrawn completely from the demand of Caillaux that French payments shall be contingent on the payment of German reparations.

This settlement must be approved by the whole American commission and by President Coolidge before it is finally accepted and signed.

With a final vote on the ratification of the Italian debt settlement due in the Senate tomorrow, every effort is being made to get a favorable decision on that issue. Indications today pointed to the probability of the ratification of that settlement by a small majority which, however, may be larger than was anticipated a day or two ago.

If that settlement is favorably disposed of, the American commission will meet promptly to consider the French settlement, with a view to having it ratified by this session of Congress.

SENATE VOTES ON ITALIAN DEBT TODAY

(BY A. P. NIGHT WIRE)
WASHINGTON, April 20.—The Italian debt settlement, football of recent Senate debate, comes to vote tomorrow with opponents continuing their efforts to amend the agreement or return it to the finance committee for further investigation.

Plans for further committee consideration were renewed today by Senator Harrison, Democrat, Mississippi, who declared the identity of the publisher of the Italian bonds of the \$100,000,000 loan obtained through J. P. Morgan Company should be ascertained. He said the committee also should investigate the activities of the bondholders in the interest of ratification of the settlement.

Senator McKellar, Democrat of Tennessee, launched another attack on Premier Mussolini and his aims, particularly his reported plan to rebuild Rome "to its Augustan splendor." Senator Copeland, Democrat, New York, replied that the Italian Prime Minister should be dragged out of office instead of "his plans to eliminate city slums, while Senator Reed, Republican, Pennsylvania, asserted it is a good government policy to effect public improvements in time of industrial depression.

Senators Harrison and McKellar gave figures purporting to show that Italy's national wealth increased from \$12,000,000,000 in 1912 to \$18,000,000,000 in 1922 and cited these as evidence that Italy's capacity to pay is greater than had been estimated by the debt commission.

Prior to the vote set for 4 p. m. tomorrow, debate will be limited to thirty minutes, for each Senator and several leading opponents of the measure expect to make eleven-hour attempts to prevent ratification. These include Chairman Committee Senator Reed, Democrat, Missouri and Senator Howell, Republican, Nebraska.

ITALIAN CHAMBER AT GENOA
(BY CABLE AND ASSOCIATED PRESS)
GENOA (Italy) April 20.—The Italian Chamber of Commerce of Genoa was inaugurated yesterday in the presence of Italian and American authorities and notables, including the American Consul, John B. Osborn.

The situation in China has been viewed, the Secretary said, from the perspective of that country's history. He declared the course of the Washington government throughout China's troubles had been "constant and definite" in purpose.

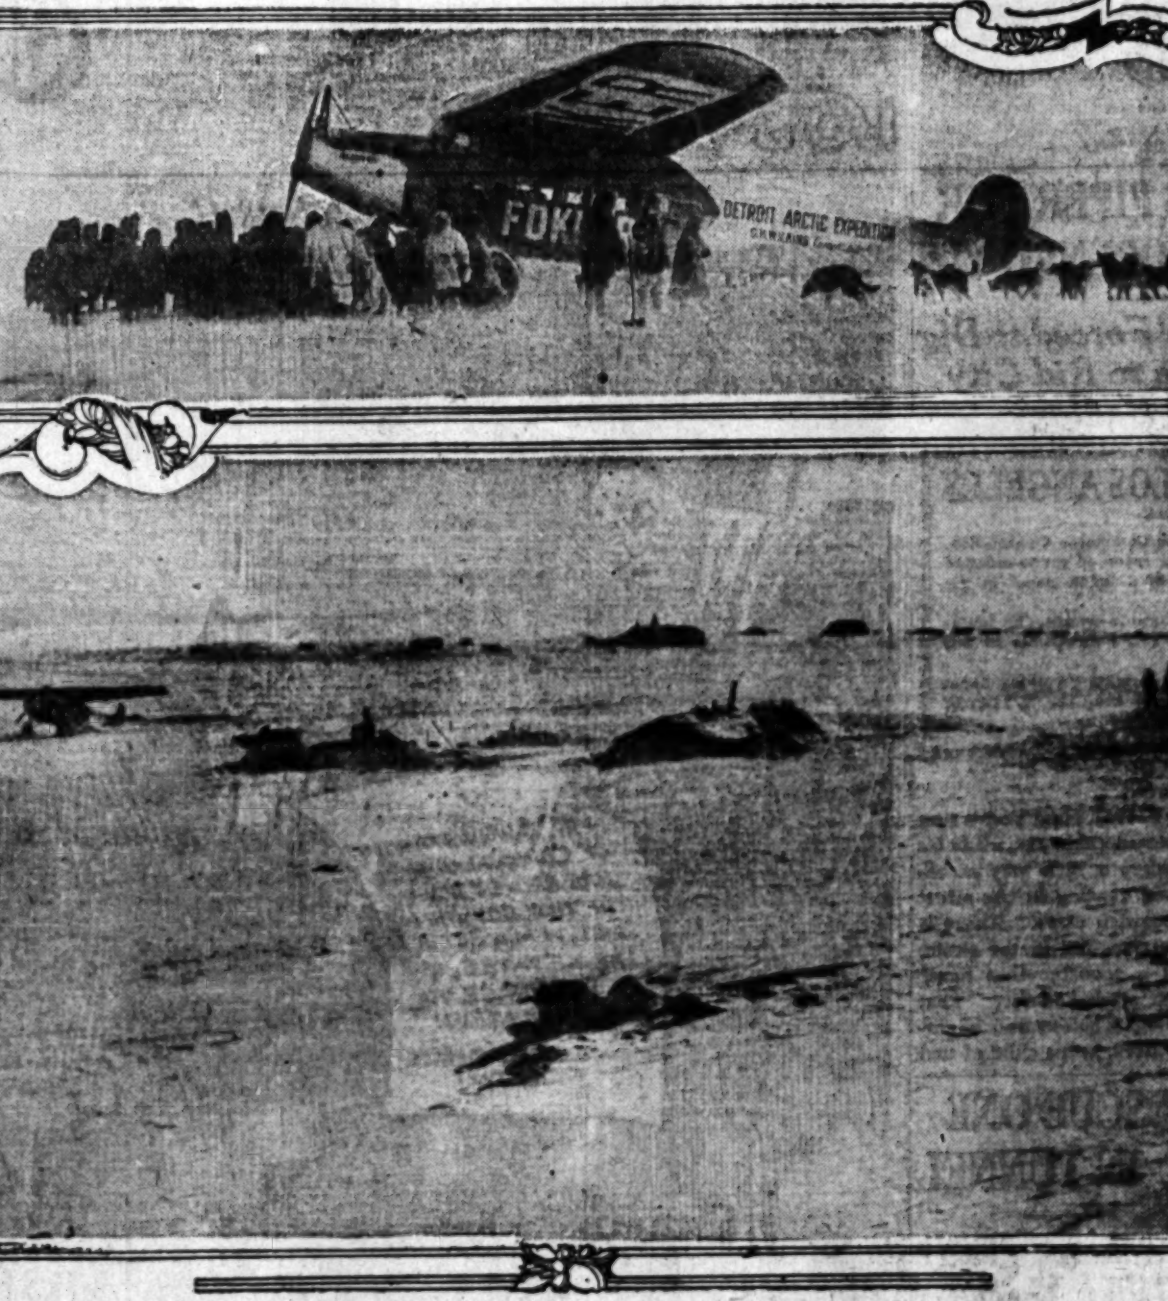

"We have endeavored, and we are endeavoring, to carry out those promises solemnly made to the Chinese people in the covenants adopted at the Washington conference. The tariff conference and he still sitting in Peking, are making progress, and are carrying out the mandate dictated by the Washington conference."

FOLLOW TRADITIONAL POLICY
As to the treaty situation between the United States and Turkey, Mr. Kellogg said there had been no departure from the traditional, typical American policy.

"We have endeavored to afford proper protection to all legitimate American activities in Turkey," he added, referring to the pending Lausanne convention. Criticism directed against "negative" and the speaker asserted "this government cannot assert its foreign policy with negative."

The Secretary referred at length to the arbitration and mediation negotiations undertaken by this government to adjust the Tacna-Arica disputes between Chile and Peru. He reminded the audience particularly the Latin-American journalists present as guests of the Associated Press, that the tra-

submitted for the consideration of the preparatory commission are very general and sweeping in character and until there has been some discussion it is impossible to determine what definite proposals can most profitably be advanced, but when the most practicable line of action is determined, this government can be counted upon to operate within the limits of its traditional policy in any serious effort toward the further limitation of the burden of armaments.

Regarding limitation of land armaments, Mr. Kellogg said this country already "had been reduced to the minimum," and added:

"We have every reason to rejoice that our situation has permitted this, but no justification for overlooking the different problems with which other countries are faced. We would naturally welcome any steps which other powers might take toward the limitation of land armaments; we shall be glad if we can at any time exert a helpful influence in this direction."

The situation in China has been viewed, the Secretary said, from the perspective of that country's history. He declared the course of the Washington government throughout China's troubles had been "constant and definite" in purpose.

"We have endeavored, and we are endeavoring, to carry out those promises solemnly made to the Chinese people in the covenants adopted at the Washington conference. The Secretary referred at length to the arbitration and mediation negotiations undertaken by this government to adjust the Tacna-Arica disputes between Chile and Peru. He reminded the audience particularly the Latin-American journalists present as guests of the Associated Press, that the tra-

policy of this country contained "no desire for imperialism, acquisition of territory, political or economic domination."

The policy is "solely a desire to live and co-operate on terms of equality," he said, and "to promote peace, interchange knowledge, develop trade and commerce, free from selfish aims."

Rock Flow From Mauna Loa Becomes Cooling Lava
Excursionists Enjoy Hardening Lava

(BY CABLE AND ASSOCIATED PRESS)
HILO (T. H.) April 20.—Terrorful earthquakes shook the trios of Kilauea, the famous volcano, on the 19th and 20th of this afternoon. They caused enormous eruptions of lava from the crater, which is nearly 10,000 feet high. Excursionists from other islands came to see the lava flow, which was a sight to behold. Jagger, director of the observatory, says the lava indicates moving lava toward the pit.

(BY CABLE AND ASSOCIATED PRESS)
KONA (T. H.) April 20.—The wrath of the God of Pele, who is supposed to be the god of the volcano, was manifested today when a lava flow from Mauna Loa today was a rapidly cooling lava flow. It was more than sufficient, however, to block automobiles over the government road, which had been blocked by lava where it crossed to the sea.

A shower of lava fell down near the source of the flow, threatening the lives of the excursionists. The lava flow was a sight to behold. Jagger, director of the observatory, says the lava indicates moving lava toward the pit.

Salvation Army National Chief Seriously Ill
(EXCLUSIVE DISPATCH)
CHICAGO, April 20.—Evangelist Booth, national commander of the Salvation Army, is suffering from an acute attack of appendicitis and is confined to his bed in her room at the Pearson Hotel here.

The commander, it was declared here tonight, became ill Sunday on the train when coming to Chicago. Despite her illness she attended lectures being given at Moody Church Sunday by her brother, William Bramwell Booth, international head of the Salvation Army. Today she was too sick to attend other lectures.

Her condition was pronounced quite serious by Drs. Carl V. Shipley and Louis L. McArthur. They found it necessary to telephone to New York for the family physician. A consultation was held between the two doctors here by telephone with him. It was decided to wait twelve hours before a definite decision is made as to whether an operation will be performed.

ANGELENO HEADS COLD STORAGE ASSOCIATION
(BY A. P. NIGHT WIRE)
SACRAMENTO, April 20.—Election of officers closed the sixth annual convention of the Pacific States Cold Storage Warehousemen's Association here today. The following were elected: W. G. Eisenmayer, Los Angeles, president; William A. Sherman, San Francisco; W. C. Holman, Portland, and S. H. Hasted, Pasadena, vice-presidents; Leon A. Raily, San Francisco, secretary and Charles K. Morrow, San Francisco, treasurer. Elected to the executive committee were M. H. Robbins, San Francisco; W. P. Stevens, Portland; J. Q. Patton, San Jose; H. C. Stone, Los Angeles, and Walter Hennington, Portland. The place for the next convention was not decided upon.

WALSH PROTESTS

KONA (T. H.) April 20.—The wrath of the God of Pele, who is supposed to be the god of the volcano, was manifested today when a lava flow from Mauna Loa today was a rapidly cooling lava flow. It was more than sufficient, however, to block automobiles over the government road, which had been blocked by lava where it crossed to the sea.

A shower of lava fell down near the source of the flow, threatening the lives of the excursionists. The lava flow was a sight to behold. Jagger, director of the observatory, says the lava indicates moving lava toward the pit.

WRATH OF PELE APPEARS

Rock Flow From Mauna Loa Becomes Cooling Lava
Excursionists Enjoy Hardening Lava

(BY CABLE AND ASSOCIATED PRESS)
HILO (T. H.) April 20.—Terrorful earthquakes shook the trios of Kilauea, the famous volcano, on the 19th and 20th of this afternoon. They caused enormous eruptions of lava from the crater, which is nearly 10,000 feet high. Excursionists from other islands came to see the lava flow, which was a sight to behold. Jagger, director of the observatory, says the lava indicates moving lava toward the pit.

VOTERS' LEAGUE BACKS DRY LAW

St. Louis Convention Comes Out for Enforcement
Urges Congress to Resist All Compromise
Illinois Delegates Divided on Declaration

(BY A. P. NIGHT WIRE)
ST. LOUIS, April 20.—The National League of Women Voters, in convention here, with only a few scattering nays, today adopted a resolution calling upon Federal, State and local officials "to use to the fullest extent, the power conferred upon them for the effective establishment of prohibition" and recommending civil service "merit" selection of enforcement officers. A minority report opposing modification of the Volstead Act was rejected.

The issue was drawn by a debate on whether the league should "meet a crisis" in prohibition and "show its colors" or adhere to technical procedure and decline to take action affecting legislation until the question had been referred to the State bodies. Incidentally, it was felt that any action upon the Volstead Act would embarrass the league's general legislative program in Washington.

Mrs. Maud Wood Park, former national president and league legislative representative before Congress, led the opposition to a minority committee report which added to the general enforcement resolution the clause "We urge Congress to resist all attempts to undermine or weaken the provisions of the Eighteenth Amendment and the Volstead Act."

DANGEROUS PRECEDENT
Several of the speakers against this clause indicated their sympathy for it, but declared a dangerous precedent would be established by "snap" or "hysterical" action.

They pleaded against a vote that would destroy the league's prestige and power, which they said, had been built upon its reputation for no decisions without lengthy deliberation. The refusal to adopt the clause by the convention was in line with the policy of national officers to avoid so far as possible controversial matters. The Pennsylvania delegation, which introduced the resolution, which introduced the resolution with the Volstead clause in it and declined to accept the committee action in striking it out, led the fight for the minority report.

A telegram from Carrie Chapman Catt, one of the founders of the League and its first president, was read. Mrs. Catt said: "I support the direct enforcement of the Volstead Act. This crisis demands brave deeds."

Most of the national officers and national board voted against the declaration upon the Volstead Act. The delegation from Illinois, where a wet and dry United States senatorial election impends, split its vote and some from that state were strongest among the speakers for a clean-cut outright statement of support of the Volstead Act.

URGES LEAGUE ENTRY
Immediate entrance of the United States into the League of Nations was strongly advocated before delegates by Mrs. I. W. Harrison, Lexington (Ky.) delegate. "If we are not ready now to take

The "L": "Before and After Taking" It Away

This photo shows Sixth Avenue, New York City, from Fifty-third to Fifty-ninth streets, as it appeared in two periods. The remarkable improvement in the thoroughfare by removal of the "L" structures is strikingly shown.

"L" COSTLY TO NEW YORK

(Continued from First Page)
poor, health officers, property owners, life and accident insurance companies, pedestrians, drivers of automobiles and teams, people with the faintest touch of civic pride, people who abhor equating, and people who have unimpaired hearing and sight—all of these, and the list is a large one, are opposed to the principle of elevated railroads. Ask, to adapt the advice of an automobile manufacturer, the city who owns one.

When New York City decided after a long wrangle to take to elevated lines, there was perhaps an excuse for her doing so. That excuse does not exist today. In the 70's no city in the world had any extended system of overhead passenger transportation, no city in the world, indeed, had any system of passenger transportation other than surface lines. The people here could draw on the experience of no other city. They were groping, pioneer-like, for some means to relieve a congestion of traffic that was becoming serious. That they finally fell on elevated lines as a solution is not reprehensible, for they did not, could not, know any better. It is merely lamentable.

PROPERTY VALUES JUMP
They say New York is the richest city in the world, has the most valuable real estate properties and buildings. But consider what its assessments would be if four of its principal streets were cleared of elevated railroads! Take this as a basis for your figures. A year and a half ago a spur of six blocks was removed from Sixth avenue above Fifty-third street. Within two months the value of the property in the neighborhood, particularly on Sixth avenue proper, had jumped 500 per cent. A ground-floor store that used to rent for \$1,000 was re-leased promptly at \$15,000. The value of the assessable property along Sixth avenue north of Fifty-third street is estimated roughly at \$250,000,000. From the experience of that sector north of Fifty-third street, which had been clanky and dour and gloomy with an "L" for forty-eight years, you can see that when the "L" is all long Sixth avenue, it removed the figure of \$250,000,000, to put it conservatively, will be doubled. The property holders have already consented to a 10 per cent tax to expedite the removal of the elevated structures.

In the light of these things, and more which will follow, it would seem the acme of folly for another city not to profit by them. New York City, which ought to know, condemns unreservedly its elevated lines. In the words of the program now being put through by legislative enactment for the improvement of transit facilities in the city, there is not one dollar provided for so much as a foot of new elevated railroads. There are buses and no unkind glances at surface lines, but nothing for "Ls" not even kind words. But "nothing" is a overstatement. There is money allotted to tear them down.

And they are to be torn down because they are any more rickety and unsafe than they once were. The catwalks in the words of the engineers outlining the proposed lines and the city officials, "Elevated lines are antiquated; there have been improvements in transportation since elevated lines were first resorted to; they are a hindrance to a city's beauty and health and development in many ways."

CHICAGO TO ASSESS ITSELF FOR SUBWAYS
(EXCLUSIVE DISPATCH)
CHICAGO, April 20.—Within three weeks downtown property owners will tell the city what they will pay by a special assessment toward building a subway to replace the archaic elevated system which, according to Earle Schuitze, president of the Building Managers' Association, is cramping not only the downtown area, but also the growth of the entire city. Mr. Schuitze told the City Council Subway Committee today that rapid progress is being made by the citizens' advisory committee named to aid the City Council in an effort to get a subway started. He spoke as the advisory committee's representative.

In his statement to the Aldermen, Mr. Schuitze forcibly pointed out how retention of the obsolete and constricting elevated system is cramping the growth of the city, and indicated that the lack of rapid transit is restricting population as well as business. Close attention was given when he said that Chicago's increase in population in 1900 was 4.5 per cent, in 1910, 8.2 per cent, in 1920, 2.5 per cent, in 1925, 1.3 per cent, and in 1926 1.5 per cent.

"In the last eight years," Mr. Schuitze said, "two proposals for a settlement of Chicago's transportation difficulties have failed to get popular approval. Our idea is to work with the Aldermen in agreeing upon the first units of a sub-level development that will fit into an expanded system as the need arises."

Although that particular bubble has been pricked a thousand times in the City Hall, Alderman Coughlin, who was a visitor, wanted to know why the Aldermen aren't planning to build a comprehensive subway at once. He was informed that the plan to build first a section of a comprehensive subway and to add units as quickly as they can be supported by the traveling public and financed.

The voters, he thinks, will not approve any plans unless they are assured a comprehensive subway at the start. Alderman Nelson, also a visitor, didn't think that any part of the traction fund could be spent on traction improvement unless it were spread over the entire city.

The Bowdoin will have its own power plant, will be equipped with sails, and will carry radio equipment which will enable it to keep in touch with the civilized world. It will carry no sailors, depending on scientist members of the party and its own commander to guide it to its goal.

A by-product of the \$600-mile trip may be the selection of a site in Labrador for a scientific station of the Field Museum, which will continue research for a five-year period.

The trip will be MacMillan's tenth voyage to the Arctic since the Peary expedition of 1908-09, of which he was a member.

The Value of AGE in a BANK

What counts in measuring the value of a Bank to a community and its patrons is not the number of years which have elapsed since it began, but the use which has been made of the time, in steady improvement in methods.

For thirty-seven years under the same management the Security Bank has followed the same policies, ever studying for better methods and applying them for the benefit of our patrons.

Age may bring experience, but progress depends upon the will to improve.

WARNERS OF GUNMEN

Crime Chief Says Dangerous Bandits Infest Coast Highway

(BY A. P. NIGHT WIRE)
SACRAMENTO, April 20.—"There are some of the highest-class gunmen in the world on the Pacific Coast from Portland to San Diego," Clarence Morrill, chief of the bureau of criminal identification, told seventy-five inspectors and captains of the State Division of Motor Vehicles, meeting here today. "They are dangerous," he added, "take no chances with them."

Regulation and copyright of State uniforms to identify State officers from county officers, a drive on drivers of cars who do not have permits, and question of licenses for part-time chauffeurs were among the many questions discussed at the conference, presided over by Will H. Marsh, chief of the division.

J. E. Macomber, chairman of the Board of Supervisors of Tulare county, and Capt. Henry Gleason, chief of the San Francisco traffic squad, were the principal speakers.

MEXICAN GUNBOAT TO MAKE ARGENTINE TRIP
(BY CABLE-EXCLUSIVE DISPATCH)
VERA CRUZ, April 20.—Two companies of cadets of the Mexican Naval Academy will sail soon for the Argentine on the Mexican gunboat Bravo. The voyage is partly for training purposes and partly to return the naval courtesies of the countries which will be visited. It had been intended to send the cadets aboard the warship Anahuac, but the Department of Marine has changed the plans and will send the Bravo instead.

MINING MAN DIES IN MARK TWAIN CABIN
(EXCLUSIVE DISPATCH)
STOCKTON, April 20.—Samuel Applegate, 65 years of age, of Berkeley, dropped dead in the Mark Twain cabin near Sonoma, while talking to W. R. Gillis, one of Twain's old cronies. Applegate was interested in mining in Tuolumne county. He was a native of Washington, D. C., and is survived by a widow.

A Pleasing Diversity of Social Activities is Afforded by The LOS ALTOS APTS.

To provide the maximum degree of pleasurable social activities, without for a moment transgressing upon the priceless home atmosphere which the Los Altos reflects, is the plan of this delightful apartment.

Dancing will be in order, weekly, in the lobby, if the owner tenants agree, while occasional musicales will be arranged. The tea room and roof garden lend themselves to afternoon teas, bridge parties, luncheons and dinner for the individual owner, as well as the tenant group. Outdoor life, too, is well provided for by the concrete tennis court and putting green with occasional contests contemplated.

Mrs. Blanche Bryson has been secured to act as Manager-Hostess of the Los Altos. She will be pleased to explain the plan of operation to any interested party.

BUTLER REVIEWS YEAR TO SHOW CRIME DROP

Hold-ups, Robberies and Murders in Philadelphia Decrease Under Pounding of Police Force

This is the fifteenth installment of Gen. Butler's story of his struggle against vice and crime in Philadelphia.

BY BRIG.-GEN. SMEDLEY D. BUTLER, U.S.M.C.,
Former Director of Public Safety, Philadelphia, Pa.
(Copyright 1924 by Bell Syndicate, Inc.)

One less hold-up a day! That was the record of the police during 1924, as compared to 1923. A hold-up is known in police circles as the "key" crime. Hold-up statistics are indicative of crime activity. Hold-ups include what are described as highway robberies and stick-ups in stores—always with guns in evidence. Hold-ups are the most feared of crimes by citizens, for the hold-up man or bandit always carries a revolver and will shoot if necessary.

In 1923, the year before I took office, there were 985 hold-ups in Philadelphia. In 1924 the number had been reduced to 635, a reduction of 350.

Robberies, the next most serious of crimes, were reduced by some 300, from 2230 in 1923 to 1930 in 1924.

Automobile thefts decreased during that twelve-month period from 3160 to 2486—in other words, almost two less automobiles a day were stolen in Philadelphia in 1924 than in 1923.

ARRESTS INCREASE

At the same time, arrests of criminals increased.

In 1923, with 885 hold-ups, police arrested 274 crooks in connection with those crimes. In 1924, with but 635 hold-ups, police arrested 492 bandits.

The number of murders in 1924 was about 25 per cent less than in the twelve preceding months. The vice activity of the year with, in great measure, why and how crime thus was reduced. Comparative statistics are the best guide.

In 1923 police raided 489 disorderly houses. In 1924 the number of such places raided more than doubled. The records show 1049 such places raided. Raids on speak-easies increased more than tenfold, from 229 in 1923 to 2566 in 1924. Raids on gambling dens more than doubled in 1924; in that year 374 such places were raided as compared with 178 in 1923.

More than \$2,000,000 worth of liquor was seized by police in their raids during this twelve-month period. Skulls, motor vehicles and other paraphernalia seized in liquor raids were valued at another \$500,000.

The arrests in 1924 totaled 129,403, as compared with 115,000 arrests in 1923; an increase of approximately 15,000, or about forty arrests a day.

Of the number arrested, more than half, or 65,743, were on charges of intoxication.

OTHER ARRESTS

The other arrests, under various charges, are rather interesting and indicative of the life of a city. Arrests for violation of the State Dry Act numbered 5935; 1465 as inmates of disorderly houses and 170 as proprietors; 3035 as frequenters of gambling houses and 281 as proprietors of gambling houses; 509 as dope addicts and peddlers.

More than 7000 motorists were arrested during the year, on charges of speeding and reckless driving—of this huge number but a few were even fined. As a result of automobile and street accidents 5277 motorists were arrested on charges of assault and battery by automobile.

I consider that I had carried out the instructions given me by the Mayor.

Crime had been reduced, reduced materially during a year, when crime, in other great cities, had increased greatly. Vice had been bitterly fought and conditions improved. The change was ready apparent. In 1923 a stranger could walk into any one of a thousand and more speak-easies and saloons in any section of the city to purchase a drink—and obtain one without difficulty. The same was true of disorderly houses and, to a lesser degree, of gambling houses.

Now, at the end of 1924, liquor still flowed, but a stranger could not purchase a drink anywhere. Such places as still operated did so quietly behind closed and screened doors and in the utmost secrecy. No longer could anyone walk through the streets of the Tenderloin to be annoyed by women of the streets.

POLITICS LOSING

And the divorcement of police from politics! Much had already been accomplished through suppression, denunciations, and transfers and the main weapon, redistricting, almost lost, and completed, and the New Year, with Council having approved the reorganization of the personnel so as to fit in with the redistricting plans, soon would see the divorcement carried as far as humanly possible, in the face of the almost insurmountable obstacles.

Other things, too, had been taken up, to improve the police force, its efficiency and its usefulness to the public.

Constant efforts were made to have policemen act in a polite and decent manner to citizens. Such education of police officers early was deemed necessary when investigations revealed that in many station houses decent citizens were discourteously treated, while traffic policemen (or at least some of them) were notorious for their lack of tact and their discourtesy.

A constant effort was made to give the police an esprit—do have them feel their oats, to have them proud of their jobs and their work, so that, in turn, the citizens would be proud of them. They dressed them in natty uniforms, gave them Sam Brown helmets. We organized baseball, football and rifle teams, and matched the men against the representatives of other cities. We wanted the individual to be proud of the group and the group of itself.

MANY REFORMS

Considerable time was spent early in the administration in arranging to have stores sell more cheaply to members of the police force, and the Chamber of Commerce, it must be said to its credit, helped in the preparation of that plan, but when it was finally consummated, the police did not take kindly to the idea.

We retired from service old, antiquated and non-effective police boats, saving the city \$10,000 annually and making the river work of the police much more effective.

HANDSOME as the finest enamel, Barreled Sunlight costs less, covers better, and is easy to keep clean. Its satin-smooth surface can't hold dirt—and is so durable that washing does not wear it away.

When used in the white, Barreled Sunlight is guaranteed to remain white longer than any gloss paint or enamel, domestic or foreign, applied under the same conditions.

By simply adding colors-in-oil to Barreled Sunlight, you can obtain exactly the tint you want to match any scheme of interior

decoration. Ask about the new Barreled Sunlight Tinting Colors in handy tubes. These colors are almost liquid, blending easily and quickly with Barreled Sunlight.

You can get Barreled Sunlight in cans from 1/2 pint to 5 gallons. Where more than one coat is to be used, apply Barreled Sunlight Undercoat first.

Easy to tint!

"My Electro-Kold makes new recipes out of old ones!"

NOW you can take your favorite pudding recipes or the stand-by salads and surprise your friends with new frozen delicacies. With an Electro-Kold you may even keep a supply of them on hand for mid-afternoon refreshments.

Electro-Kold is home refrigeration simplified—automatic—dependable. Electro-Kold has more than 100 less parts than any electric home refrigerator we know of. You may prepare your desserts in the morning, or even the day before, set them in the frost tank—and there you are!

What was formerly a luxury, is now the simplest dessert on the menu! The dry, clean odorless refrigeration of Electro-Kold serves a double purpose—it keeps foods better, and makes frozen desserts. Its electrical operating cost is so small that it becomes an actual economy! Best of all, you may purchase it on convenient terms. Made by Electro-Kold Corporation, Spokane, Washington.

YOUTH HITS FIRST HOMER OF YEAR OFF JOHNSON

CHAMP DECISION
Cautious Greeting
Lester Johnson

BRANCH GAME AT WHITTIER
To Play Tilt on Post Field When Christian Endeavor Delegates Meet

SENCIO DIES AFTER BATTLE
Filipino Boxer Succumbs to Cerebral Hemorrhage

BABE RINGS CASH BOX AGAIN
Herman Ruth gave the dopsters who have been bewailing his finish considerable food for thought, when he collected five hits in five trips to the plate against Washington yesterday afternoon. The Babe rapped out his first four-base clout of the season when he took a fancy to one of Walter Johnson's hot ones. Considering that anyone that nicks the "Old Reliable" for a single is considered lucky Babe's homer must look mighty sweet to the Yankees. If Herman is still collecting a bonus every time he puts the pill over the fence, the well-known cash box should be well lined by fall.

Read of Riverside Leading El Caballero Invitational

VICTORIA ACE HOME WITH 74

Kenyon Second in First Day Qualifying Field

Potrero Tourney at Pasadena Next Tuesday

Smith Scores Fine Win Over Dow at Redlands

BY BILL WISE

(Riverside) club, who spent several weeks in the state capital during the California open tournament at the El Caballero course last week, scored a fine 74 over the same layout yesterday to lead the first day qualifying field in the annual club invitational tournament.

Read was in fine shape throughout his championship round and missed three shots that would have enabled him to clip the stiff par maintained by Jack Tarrant's golfing squad.

C. E. Kenyon of Brentwood was second in the play yesterday, with a gross 83, Dr. C. K. Mather finished with an 84 to lead the rest of the field, numbering nearly 100 players, all members of the club.

Read was in fine shape throughout his championship round and missed three shots that would have enabled him to clip the stiff par maintained by Jack Tarrant's golfing squad.

C. E. Kenyon of Brentwood was second in the play yesterday, with a gross 83, Dr. C. K. Mather finished with an 84 to lead the rest of the field, numbering nearly 100 players, all members of the club.

Read was in fine shape throughout his championship round and missed three shots that would have enabled him to clip the stiff par maintained by Jack Tarrant's golfing squad.

DENTAL GOLERS AT LONG BEACH

The Long Beach Dental Society has invited the members of the Southern California Dental Golf Club to attend their third annual field day and clinic, to be held at Long Beach tomorrow.

The tournament will be held in the morning at 8 a.m. The play will be on a net and low gross in three classes, with prizes for each event in each class; also special prizes.

CALLAHAN COPS BOUT AT VERNON

(Continued from First Page)

crowd to make the unaltered-for demonstration of the club's prowess. That young man ducked and dodged, but was not touched by Goodrich. The latter in a spirit of friendly sportsmanship waited for Callahan to climb back in the ring and dust off his shoulders for another round.

Puente won from Johnson on a foul in the third round. It was a low blow, Dr. J. H. Mace, the club physician, examined the injured fighter, examined the injured fighter, examined the injured fighter.

Up to the time of the foul Johnson's opponent, who had been on the back list since the Hudkins-Callahan imbroglio last fall.

At the end of the Gann-McGovern fracas a tribute was paid to Clever Sencio, the stricken Filipino. The lights were turned out and the bell was tolled ten times.

Incidentally the Vernon arena was filled to capacity and overflowing for the first time in many months. Standing room was at a premium.

Nelson Shows Class During Glove Trials

Roughhouse Nelson, also known as Owen Phelps, the Phoenix (Ariz.) middleweight, who is somewhat of a sensation in his own State, passed inspection yesterday in his workout at Carlo Curcio's gymnasium.

The training camps have given Nelson the okay and Mickey Rooney has a day-sized job on his hands.

Willie Hunnefeld was all smiles after his fighter got through working. He is satisfied that he has brought a real battle to Los Angeles.

Hunnefeld and some more of the Arizona delegation have plenty of sugar to back up their opinion that Roughhouse Nelson will beat Mickey Rooney by a bigger margin than he did when he fought Mickey some weeks ago.

Panama Title Holder Loses Culver Battle

Roberto Risdon, lightweight champion of Panama, made his first start in the United States at Culver City last night, and lost in eight speedy rounds to Ad Cadena.

That ancient scrapper looked better than he has in some time and, although the lights title-holder provided plenty of fast battling, Cadena proved too good.

Willie Fitzgerald won on a foul from Joe Cortez in the semifinal. Other results were: Joe Cardona defeated Leo Mitchell; decision; Charlie Dunn defeated Ralph Fernandez; decision; Matt Boyer and Frank Reynolds; Dan Reed and Sammy Parker, draw.

The entire card provided plenty of fast action, and a fair-sized crowd of fans witnessed the entertainment.

ACCIDENTAL NINE TO PLAY LOYOLA TODAY

Cosch Wilkie Clark's Occidental College baseball team is to meet the Loyola College nine this afternoon at Patterson Field in a practice game. The Oxy squad plays the Bulldogs in a regular conference game this Saturday at Redlands.

Both Teahout and Powers have been given work in the Tiger games so far this season and both have proven up. The third member of the hurling staff, Merrill Gregory, will probably be in the practice this afternoon. Clark also hopes to get some valuable batting practice for his men.

By Bill Wise

C. K. Seymour of the Los Angeles club, won the thirty-six-hole semiannual seniors' tournament for Beverly club members with 98-95-193-48-145.

Fred C. Hudson, former senior title-holder, was third with 83-89-172-94-148. H. W. Armstrong was fourth, 102-95-197-48-149. More than three-score contestants all more than 50 years of age, played through the two-day event.

Mr. and Mrs. George Weber finished under the Los Angeles mixed foursome stroke Sunday with an alternate stroke score of 85-8-74. Mr. and Mrs. George M. Lewis were second, 83-5-78.

The regular Brentwood mixed foursome tourney for club members, scheduled for the first Sunday in next month, has been postponed until May 9.

Edgar Park turned in a gross 84 to finish 5 down in the match play against par sweepstakes at Montecito last week. Gen. E. B. Rabbitt was second, 83-5-78. Mr. and Mrs. George M. Lewis were second, 83-5-78.

WOMEN'S TITLE EVENT SOON

Fine Field Tuning Up For State Association Tilt at Wilshire Monday; Foursome Feature Added

Mrs. Frank Sheedy, Bay City women's champ and Mrs. Louis Longfeld, Berkeley club title-holder, will be included in the fast field of invading golfers, who will start medaling for the championship of the California Women's Golf Association at the Wilshire club, Monday.

With at least twenty of the best players in the state golfing under local club banners, the major tilt in State feminine circles should remain in this vicinity. Miss Margaret Cameron and Miss Kathleen Wright of Flintridge, Mrs. W. Campbell, Mrs. G. M. Lewis, Mrs. C. W. Cook and Mrs. Anne Wolverton of the Los Angeles club will be in the golfing offensive under the home leadership of Mrs. Ted Haas and Mrs. T. H. Pike that should cap the State crown.

Los Serranos will celebrate the first anniversary of the growing organization with a week-end program that will include golf, tennis, horseback riding and other sports, starting Saturday with a May polo dance and many other unique social attractions during the day and evening.

A. Robillard, with 114-88-78, won the Helman heavy tourney at Glendale last week. F. H. Gay was second, 118-83-74. A. H. Venturo, 87-14-78 and A. H. Poole, 108-86-72, tied in the special blind bogey feature arranged by Pro Charlie Bust for members of the Glendale club yesterday.

R. A. Kopski defeated N. D. Bruce, 4 and 3, in the Class A thirty-six-hole final match of the spring handicapping tourney at Westward Ho. E. N. (Jack) Miller won from C. F. Smith, 4 and 1, in the Class B play. Pro Kelly set all fees back for the annual club event that drew a fine entry.

The fact that golf clubs are being frequently cut up into subdivisions, and enterprising machine wielders are being continually pushed further into the country to find suitable sites for links means nothing to the University of Southern California college of music. That institution has built a nine-hole course practically in the middle of town—the corner of Adams and Grand.

The Phi Mu Alpha College of Music Golf Association is the official title of the affair. The shortest hole is seven yards, according to Frank Hookway of the Dyes Company, who assisted in the arrangements and laying out of the affair, and is par 2. The longest is twenty-seven yards and par 4. Average figures for the course are 23, but with a tournament on schedule for Thursday, it is thought that a new record will be established.

\$10,000 in Cash and Prizes! Just one idea of yours may be worth \$500. See full page ZAIN announcement in Thursday's Times. (Advertisement)

WEST—as the West itself

Is This Gasoline For You Westerners

THE question is often asked, "How can I choose my gasoline? I don't see it. It goes into my tank from a hose while I sit in the front seat. By local or state ordinance it must perform satisfactorily—at least enough so that it is hard for me to tell the difference in gasoline. If it doesn't function so well, it may be the car itself. So how can I judge?"

But you can judge in another way. When you hire a man you inquire as to his record. When you buy a car you want to know if the manufacturer is reliable. If he has been in business long. How he has progressed. And if his product is a quickly thought-out assembly. Or has it developed as the inevitable perfection of years of conscientious labor.

So with gasoline and oil. And when you buy non-detonating Union Gasoline and Aristo Motor Oil, consider these facts:

Union Oil Company of California is the oldest major producing and refining oil company in the West.

In 1883, when the oil production of Western America was 147,000 barrels, Lyman Stewart founded in Santa Paula, California, the company which seven years later became the Union Oil.

Union Oil Company backs its gasoline and oil with one of the most complete organizations in America—600 producing wells, 50,000 barrels of crude a day, seven huge refineries, 13 deep sea tankers, 860 miles of pipe line, 500 service stations, 300 distributing plants.

These things you do not see, but in every gallon of non-detonating Union Gasoline and each quart of Aristo Motor Oil they are all represented, working to serve you, guaranteeing satisfaction and service.

MEXICO PRIEST
SHOT TO DEATH

Mystery Shrouds Slaying of
Noted Cure

Was Aide to Flores, Reported
Poison-Plot Victim

Murdered Man Had Given
His Wealth to Charity

(BY A. P. MORT WIRE)
NOGALES (Ariz.) April 20.—Father Gregorio Esparragoza, Catholic cure of Badiraguato, Sin. Mex., and intimate friend of the late Gen. Flores, was found murdered in his bed Sunday, says a special dispatch to the Herald today from Mazatlan, Sin. For several years Father Esparragoza was private secretary to Gen. Flores and knew his political life as few others did.

An elected 30-30-caliber cartridge shell, footprints leading to the window of the cure's house and from there into the brush on the edge of town, are the only clues police have to work on.

The murder occurred Sunday evening shortly after Father Gregorio had concluded late services and had retired to his home, continues the dispatch. Two shot, piercing the stillness of the night, attracted the attention of neighbors, who found the priest's half-clad body stretched across the bed.

Father Gregorio was one of the pioneer priests of Sinaloa, going there many years ago from the State of Sonora.

He was a man of high family, at one time a wealthy farmer, but forewore all earthly things, gave his wealth to charity and forewore his friends to minister to the Indians and poor.

Funeral services were held Monday afternoon and burial was in a small graveyard adjoining a native mission at Badiraguato.

Coincident with announcement of the priest's death, came word from Mazatlan that an "official source" had declared Flores met death from "poison administered at the instigation of high government officials."

The statement, however, absolved Gov. Vega of Sinaloa, from any part in the asserted plot.

Flores's widow recently declared she knew that her husband had been poisoned and that he, too, was aware of it, but declared, in conformity with Flores's wishes, she would not divulge the person's identity. Meanwhile Sinaloa State authorities are continuing their investigation into the deaths of both Flores and Father Esparragoza.

LIQUOR ANALYSIS DRAW FIRE

Discreet Service—for \$5—of Corner Drug Stores in New York Which Offer Precautionary Examination of Beverages, Called Unreliable by Health Official

(BY A. P. MORT WIRE)
NEW YORK, April 20.—The corner drug store has added to its function of dispensing pills and penicillin, plasters and perfumes, cosmetics, ametics and ice cream soda, a new service—analyzing liquor.

"Alcoholic beverages analyzed here," read discreet window placards.

"Don't believe it," says city health officials.

"Nothing more than mental safeguards," says Dr. Louis I. Harris, health commissioner, who today warned that many of the drug store analyses are only "unofficially correct."

Dr. Harris asserts that only 1 per cent of New York's drug emporiums are equipped for complete analytical work and that the drug-

gists send specimens to "obscure and poorly equipped laboratories." A payment of 15 cents, the druggist states, an exhaustive analysis which ascertains the quality and detects the presence of poison.

"The alcohol content in most of it is pure, and tests high," said one chemist, "but most of our patronage is from the exclusive Park Avenue neighborhood, where the best is bought."

"There is a lot of liquor sold in speak-easies that is pretty poor—just falls short of poison."

"The average analysis is not a guarantee of the quality of the liquor," said Dr. Harris. "It may contain methyl oil, which is difficult to detect and which becomes ether as the liquor ages."

NUPTIALS OF CINDERELLA UNITE PAIR
Father of 'Peaches' Heenan Now Feels at Liberty to Return to Second Wife

(BY A. P. MORT WIRE)
CHICAGO, April 20.—Marriage of Frances (Peaches) Heenan to Edward W. Browning, New York millionaire, may speed the reunion of W. R. Heenan, the girl's father, and his second wife, Mrs. Mattie Heenan, Chicago.

With the burden of keeping a fatherly eye on his daughter lifted, Heenan is now planning to return to Chicago as soon as his business in New York will permit.

His second wife has learned. Although separated many months, their love has not cooled, she said.

Three years ago Heenan learned that his first wife needed assistance in taking care of "Peaches" in New York. He and his second wife agreed it was his duty to go to New York.

He has written regularly to the wife left behind, she said, and now that the girl is married he is free to return.

Heenan was divorced from his first wife, Frances's mother, ten years ago in Columbus, O., according to his second wife. Two years later he met and married his present wife, widow of D. L. Bailey of Louisville, Ky.

KILLER SELF IN RESTAURANT
MIAMI (Ariz.) April 20.—Tony Solito, who came from California about two months ago, entered a restaurant and threatened one of its proprietors, with whom he had been on very friendly terms. Suddenly the visitor turned his pistol to his own temple and fired a shot that was instantly fatal.

ORCHIDS CROSS NATION BY AIR

Postal Chief at Capital Gets Bouquet Sent Him by Local Florist

WASHINGTON, April 20.—Postmaster-General N. W. found on his desk yesterday morning a box of magnificent orchids, the gift of a firm of florists of Los Angeles.

The orchids had been sent by air mail over the first direct route from Los Angeles to New York. The box left Los Angeles Friday morning and reached New York in time for delivery at the Postoffice Department on the first mail Monday morning.

The letter accompanying the gift: "Celebrating the installation of direct air-mail service from Los Angeles to New York City, please permit us to extend to you our sincere congratulations. We anticipate that this service will be of great help and convenience to us. Please accept the enclosed orchids with our thanks."

The flowers were in just as good condition as when they left the florist.

dream of restoring the city to the splendor it attained under Emperor Augustus and the launching of a nation-wide program for utilization by means of intense, silent work of the resources not only of the peninsula but of the African colonies, where old Rome also held sway.

Coming as it does after a fortnight of exceptional emotional excitement including an attempt upon Mussolini's life and his triumphal march through Tripoli, the celebration promises tremendous manifestation of faith in the person and intentions of Italy's supreme leader, and similarly, it will be the occasion for reaffirmation to Mussolini of Fascist Italy's determination that the seed of empire shall not fall upon fallow soil.

LASSEN IN ERUPTION AGAIN
(BY A. P. NIGHT WIRE) REDDING, April 20.—Lassen Peak was in eruption for an hour today, beginning at 12:30 p.m. The volcano emitted a cloud of smoke which was thick with ash. The eruption was regarded as an insignificant one, but attracted much attention in Redding and Shasta county settlements.

FARM-AID BILL CHOICE NEARS

House Will Ballot on Two Divergent Measures

Tincher and Haugen Plans to Come Up for Vote

Committee So Decides After Deadlock Persists

(BY A. P. NIGHT WIRE) WASHINGTON, April 20.—Two divergent farm-relief measures, one supported by the administration and the other opposed by it, will be put to a vote in the House. The Agriculture Committee decided on this program today after it became evident that Republican members were hopelessly split on the two plans—the Tincher bill, introduced by Secretary of Agriculture, and the Haugen measure, which would carry out the corn-belt plan for financing agriculture by levying an equalization fee on basic farm commodities.

The committee meeting was behind closed doors. Representative Tincher, Republican, Kansas, said later Republican members voted unanimously to report both bills, with the Democrats solidly opposing the motion, made by Representative Williams, Republican, Illinois.

The committee did not vote directly on the merits of either measure and members said it is doubtful whether it will. They indicated that it will be left to House majority leaders to decide which bill is to have right of way.

Regardless of which one is called up for consideration, it will be in order to move to substitute the other, and in this way the House will have a chance to express its preference.

NUMBER OF FARMS IN NATION DECREASES
(BY A. P. NIGHT WIRE) WASHINGTON, April 20.—A decrease of 1.3 per cent in the number of farms in the United States between 1925 and 1926 was reported today by the Census Bureau, which placed the respective totals at 6,448,343 and 6,371,617.

The bureau making a preliminary announcement of the number of farms by tenure as disclosed in the 1925 census of agriculture, disclosed a 1.4 per cent decline in operation by owners and an increase of 0.3 per cent in operation by tenants, who operated 35.6 per cent of all farms in 1925.

Se hicieron públicas algunas indicaciones de que el Presidente Coolidge se opone a la censura Federal de las vistas de cine. La Sociedad Médica Americana pidió a la suprema corte que hiciera a un lado las restricciones en las recetas de médico.

El doctor W. W. Yen, ya por Chin Yun Peng, ambos ex-primeros ministros.

Canadenses Equivocales que Ven el Aeroplano Polar
FAIRBANKS (Alaska) April 20.—A través de la niebla han podido distinguir vagamente unos cazadores esquimales de la isla de Thetis, un aeroplano que va volando sobre el congelado océano Ártico. Esta es la primera noticia que se tiene del capitán George H. Wilkins y de su piloto, Ben Eliason, desde el último puesto en la mañana, día en que salieron de aquí rumbo a Point Barrow. La isla de Thetis se halla frente a la desembocadura del río de Colville, a menos de 150 millas, en línea recta, al sudeste de Barrow.

NOTAS LOCALES
Fue Segurado un Banco de esta Ciudad.

Los bandidos, de los que se quedó en un automóvil fuera del banco, listo para emprender la carrera en el momento oportuno, arribaron ayer tarde al State Bank de Arroyo Seco, sito en la avenida de Pasadena, 8209, y se escaparon con \$2800 en efectivo.

El bandido que practicó el asalto propiamente dicho tiene las señas siguientes: es hombre bajo de cuerpo, pero de muy fuerte estructura; tiene pelo y ojos obscuros, y representa 30 años de edad.

Entró en el banco cuando no había allí ningún cliente; sacó un revólver y obligó a Doyle S. Cox, cajero auxiliar, a la señora Elizabeth Newara, taquígrafa, y a la señora Florence Cox y al señor Hayden Allen, tenedores de libros, a ponerse contra la pared, con la cara vuelta hacia la misma, en tanto que él se dedicaba a saquear las "cajas" de los dos cajeros pagadores, y se llenaba los bolsillos de billetes.

Al salir del banco, el bandido amenazó con su revólver a un grupo de chiquillos que allí se encontraba. Uno de los muchachos corrió a una estación de gasolina cercana y telefonó a la policía de Highland Park; pero los guardias llegaron demasiado tarde para poder seguir la pista de los atracadores fugitivos.

Baseball
WASHINGTON, April 20.—Babe Ruth, llamado el "Buitán de la Cachiporra", ha logrado su primer home run de la temporada, en el primer turno del partido de hoy, que ganaron los Yankees de Nueva York por 15 a 5.

El Bambino, no sólo hizo esa carrera circular, sino que logró otros cuatro golpes, poniéndose a la cabeza de los Yankees, en un tremendo asalto contra los lanzadores de Washington.

Cualquier cosa que pueda fallarle a los peloteros troycanos en punto a calidad y esplendor, el instructor Sam Crawford lo compensa con cantidad de jugadores. No menos de 16 jugadores que llevan en sus mangas uniformes cardenal y oro, tomarán el tren de Tucson esta tarde a las 5, e irán a esa población a contender con la Universidad de Arizona, en la serie anual de tres partidos.

Greater ORCHARD VALUES!

Land VALUES in Southern California, as elsewhere, are established by the PRODUCTION of those lands, and Orange County's citrus production has been such as to warrant prices of \$5000 and \$6000 per acre, paid by the most experienced growers.

Ranch COSTS are affected by all manner of human conditions, and once in a while there arises an opportunity to buy RANCH VALUES far greater for the money than at any other time. Such a situation now exists at the David Hewes Ranch, three miles east of Orange, where full-bearing Valencia orange and lemon groves are being sold, to close an estate, at prices much less than their value, judged from their production records.

The trees are largely full bearing; they have received the best of care, and the yields have been steadily increasing as the trees grow larger. The groves have been consistently fertilized, pruned, and fumigated and have already had their usual spring fertilization for this year.

Consistent good care has brought the production of these groves to a high average, so that the Valencia orange yield for the past three years shows an increase of 20 per cent over the STATE'S average, and a 7 per cent increase over the average of Orange County, which has the highest average yield of oranges in California.

The lemon groves of the David Hewes ranch estate are to a large extent relatively young trees, but the average production per acre is 21 per cent greater than the average for California and 10 per cent greater than the average for Orange County, which is one of the four coastal counties where lemons produce heaviest, especially during the summer months.

Thus it will be seen that the present prices of \$1000 to \$3000 per acre for Hewes ranch estate groves are exceedingly low compared to the PRODUCTION VALUE. Nowhere else in California can citrus groves carrying such tremendous crops be purchased at prices comparable to these. Lemons are picked every month in the year and the Valencia oranges are NOW ready to harvest; an IMMEDIATE return on your investment.

And the terms are only one-fourth cash, the balance arranged in convenient payments. There is a five per cent discount to those who build and an additional 5 per cent discount to those who may wish to pay all cash.

There is a double water supply for the entire ranch of nearly 100 acres; we have our own packing houses, and all the facilities required for a large ranch, so that we can continue to care for your grove until you are ready to build and assume its complete charge.

Drive out today, and see this beautiful ranch, where there is an income home tract awaiting you.

The Genius of De Pachmann and the Magic of

Welte-Mignon

The great Vladimir De Pachmann, the most celebrated pianist of his century, and the last survivor of a Golden Age of Music.

WELTE-MIGNON (Licensee) in the IVERS & POND

When you have heard one of the rolls of the great DePachman, when you have heard that roll played with the Welte-Mignon (Licensee) Reproducing action and when you have heard that roll with the Welte-Mignon (Licensee) Reproducing action in the Ivers & Pond Piano, then you will know what the great DePachman means when he says, "Through you I live forever," for the Welte-Mignon (Licensee) stands out today as a perfect production of years of effort and accomplishment.

It is found in many of the leading Pianos on the world's market and the Ivers & Pond carries with it all of the traditions, the air of aristocracy, the perfection of musical art which for two generations have kept its name before the musicians of the world as a perfect musical product. It is comparable point by point with any piano in the world today.

New pianos come and go, but don't you remember how your aristocratic neighbor "back home" had an Ivers & Pond in his beautifully furnished parlor?

And don't you remember that your local conservatory of music recommended the Ivers & Pond?

This famous instrument maintains its position of exclusive distinction today as it did fifty years ago.

Your old piano, upright or grand, will be accepted in part payment and monthly installments can be arranged for the balance.

The Ivers & Pond Piano with the Welte-Mignon (Licensee) Reproducing action is priced today at \$2750.00 and for those who want the best, we invite comparison of this instrument with any instrument on the market today.

May we have the pleasure of demonstrating this instrument to you?

PIQUANT PUZZLE
OF WAR SOLVEDEx-French Minister Admits
Writing to Woman SpyArdent Missives Indited to
Mysterious Mata HariAnother Official Accused of
Being Their Author

(BY CABLE AND ASSOCIATED PRESS)
PARIS, April 20.—A mystery involving Mata Hari, woman spy, has just been solved. The mystery was the identity of the War Minister, his name beginning with "M" and ending with "Y," who wrote gallant epistles to the mystic danseuse, executed in October, 1917, for espionage.

For years the enemies of Louis Malvy, once Minister of the Interior, had implicated him, but now Adolphe Messimy, former Minister of War, admits that, intrigued by the beautiful dancer-spy, he wrote the letters which she cherished until they were seized at her arrest.

It was believed by some that the Senate, which convicted Malvy of having communication with the enemy and exiled him to Spain, knew the authorship of the letters, but other persons declared that they did not figure in his conviction.

Messimy's admission is contained in a letter to Mme. Severing, a Socialist writer, who in some way had learned that he was the author of the notes to Mata Hari.

LETTER GIVEN

The letter says:
"You ask me to bear witness to clear up an enigma and soften a sadness. You think this testimony may contribute to lessen the hateful vehemence of adversaries attacking my friend and old colleague, M. Malvy."

"You recall to me that the French always have been most indulgent for the faults which brought Francis I and the Bear-nais (meaning Henry IV) a good part of their popularity. I know also that not only Frenchmen, but perhaps French women, are even more devoid of all tolerance and all amenity for the man who seeks to escape flattery, advances, tempting and direct, of a woman, above all if she is famous and beautiful."

"Nevertheless, that is the true story of my relations with Mata Hari; during many months fourteen years ago, she, by all the means of seduction which she knew how to employ in incomparable fashion, tried to acquire the right to call herself my mistress. I found her charming, but full of mystery and just as enticing as she was disgusting. I had the impudence not only to tell her that, but to write it to her."

Mata Hari was declared by some persons to be Dutch. Others claim she was Javanese. She was convicted of conveying to the Germans the secret of the construction of entente tanks and died before a firing squad on the parade grounds at Vincennes.

During a recent debate in the Senate on the financial bill, M. Malvy was castigated by his opponents, presumably in connection with the Mata Hari case. During a bitter retort he faltered on the rostrum. Later he retired as Minister of the Interior in the Cabinet of M. Briand in order to fight his enemies. For a time during the war Malvy was Minister of the Interior and Messimy was Minister of War.

Gen. Messimy in his letter says he does not remember the exact terms of the letters he sent to Mata Hari.

"I never had foresight enough to make copies of that sort when it came upon me to send them," the general declared. "But certainly those letters were most gallant, because in writing them I reproached myself for being too docile before the counsels of prudence to re-act stupidly. The story of Mme. Potihar and her servant."

"Let this adventure serve as a lesson to young Deputies of ministerial timber whom beautiful women pursue with advances which they suspect somehow confusedly. Let Deputies beware leaving in ladies' hands both their overcoats and their letters which might serve as poisoned weapons. In the last analysis it was to that hair-filled paper that the whole perfidious campaign aimed at linking up of M. Malvy's name with that of the celebrated spy can be traced."

Riffs at Peace
Session Again
Consult Chief

(BY CABLE AND ASSOCIATED PRESS)

OUJDA (Morocco) April 20.—The conclusion of the armistice conference between the French, Spanish and Rifian delegations promises to be still further delayed. The third Rifian delegate who proceeded to the headquarters of Abd-el-Krim yesterday by airplane to lay before the Rifian chief the Franco-Spanish proposals returned today, but immediately started back again to seek further instructions from the leader.

In the meantime the Rifian delegation, abandoning the customary tactics of European diplomats, has asked the nations of the world to witness its honest desire for peace in a second communique issued to the press this morning.

SUSPECT ARRESTED IN
ASSERTED BUNCO GAME

(BY A. P. NIGHT WIRE)

SEATTLE, April 20.—Peter Radovich was arrested today for operating an asserted bunco game. Police said he had worked his plan in San Francisco, Los Angeles and other Pacific Coast cities. Radovich was charged with sending emergency telegrams for loans to friends of other people in other cities signing the given name of the supposed borrowers.

Everyone has an "eye for style"

HART SCHAFFNER & MARX

make men's clothes
with that idea

Style is so much a matter of proportion, color relation, and line, that many people think they can't see it. But we know they do. They are demanding better design in their houses, in their cars, in their books, in

the things they wear. For years Hart Schaffner & Marx have put style into their clothes; they've used the masters of design, color harmony and cloth weaving to put it there. You'll see it in the clothes as well as the advertising

WALL STREET PARAGRAPHS

Major Part of Trading on Small Scale Done by Professionals

(Copyright, 1926, by New York Evening Post, Inc.)
NEW YORK, April 20.—Prices moved irregularly during another sluggish trading session on the stock exchange today. Speculative interest was at a low ebb with professional traders continuing to account for by far the major portion of the day's operations. Forces operating for lower prices continued to cast about for new vulnerable positions throughout the greater part of the day, but their efforts again failed to bring out any appreciable amount of new speculation. Most of the day's developments likely to aid in restoring public confidence were lacking. Local transactions were among the strongest features of the day. The backing and filling movement held away until the turn of the last hour when some fresh buying appeared in the leaders. This had the effect of bringing a covering movement by shorts and, in consequence, a fairly broad rally marked late dealings. Motors were among the late features, but Steel common and the equipments forged ahead with many of the specialties moving up sharply. Utilities were in demand following the action of the Columbia Gas and Electric in raising the dividend rate to a 5 per cent basis, which was something of a pleasant surprise even to the most sanguine.

Searching Out Weak Spots
Despite the fact that one of Wall Street's oldest pieces of advice is never to sell a dull market after a prolonged reaction, there are evidently those among the speculative element who feel that the time-worn axiom, like many others, no longer holds true. At any rate the bear element continued to search for vulnerable positions throughout the day, notwithstanding the pronounced advance in the market. They succeeded in driving a number of stocks into new low ground for the year. American Smelting proved vulnerable to attack, following the posting of a fresh reduction in lead prices and was hammered down through previous low points. The rubbers were sold in anticipation of an early cut in tire prices with pressure converging on United States Rubber and Goodrich, both of which dropped to new lows for the year. Other weak features included Commercial Solvents B., Barnett Leather, Ward Baking, Cadbury Packaging and Stewart Warner, all of which yielded 1 to about 4 points.

Local-Steel Springs Deal
Despite the fact that the proposed consolidation of American Locomotive and Railway Steel Springs was expected to be ratified at today's meeting of the board of the first mentioned company, there was little activity in either stock. Neither issue appeared on the tape during the forenoon and it was not until well along in the afternoon that they appeared. Light demand carried both issues moderately higher. Both companies are understood to be in a position to handle the business that is generally known.

Persistent Pressure on Armour
The Armour issue, which broke rather sharply under heavy offerings in trading yesterday, continued under persistent pressure during the day. The theory in most quarters was that the selling in progress had been induced by nervousness over the outcome of the investigation by the government professional journalist, the fertilizer situation in which the Armour company, along with several others, is under investigation. No inkling had been heard of any possibilities in connection with the

dividend on the A stock. Chicago dispatches served to check rumors in that respect, which had been started as an outcome of the heavy selling. Reports from the home offices quoted officials as saying that there had been no discussion of the dividend question which led to the assumption that such payments were safe.

Federal Mining Breaks Sharply
Federal Mining and Smelting, whose recently announced common dividend policy has been restrained by court injunction obtained by certain preferred stockholders, broke sharply today following the overruling by the court of the demurrer filed by the company. Not much stock came out, but small offerings were sufficient in the absence of any vestige of demand to cause a drop of some 18 points within a few minutes to new low levels for the year. The preferred stock, which would naturally benefit from a final court decision against the company, was strong in contrast to a sharp advance. The exit seeks to restrain payment of common dividends until the assessment of the company are brought up to a point equal to the par value of its preferred stock. It is not known whether the company will appeal from the latest decision of the court in the case.

Bigger Coast Line Extra
The larger extra dividend voted by the Atlantic Coast Line directors was not surprising, in view of the excellent earnings of the road and its strong position financially. Therefore, the action did not prove much of a factor marketwise, though it brings the amount paid in extra this year to \$2.50 a share, compared with extra disbursements of \$1 a share in 1924 and 1925. As if to emphasize the ability of the road to make the payment, it was stated that the distribution was to be made out of nonoperating income.

CAR LOADINGS GAIN
(BY A. P. NIGHT WIRE)
WASHINGTON, April 20.—Placing freight-car loadings for the week ending the 19th inst. were 929,506, the American Railway Association announced tonight that this was an advance of 1414 over the preceding week and an increase of 11,106 compared with the corresponding week last year.

NINE TO BE INITIATED
(EXCLUSIVE DISPATCH)
CORVALLIS, April 20.—Nine neophytes to the Oregon State chapter of Sigma Delta Chi, national professional journalistic fraternity, were announced at the first student-body meeting of the term at the Astor Commercial College. Formal initiation will take place the 21st inst.

OFFER BUILDING LIENS
Securities of Oakland Warehouse Company on Market
An issue of \$250,000 first mortgage 4 1/2 per cent serial coupon gold bonds, secured by the land and three-story, reinforced concrete fireproof warehouse structure known as the Gibson Terminal Building, which will be erected at office in Oakland, is being offered by S. W. Strauss & Co.

The bonds are dated March 15, last, and mature semiannually in from three to fifteen and one-half years, and are callable at 103 for the first five years and 102 thereafter. The bonds are exempt from personal property tax in California.

The land and completed building are appraised at \$484,000. The net annual earnings available for interest requirements are \$48,000, assured by a twenty-year lease at that rental to the Lawrence Warehouse Company. The building will comprise approximately 125,000 square feet of floor space.

ICING-CHARGE CUT ORDERED
(EXCLUSIVE DISPATCH)
PHOENIX (APRIL) April 20.—Notice has been received of a reduction of 250 a ton on cantaloupe packing charges, ordered by the Interstate Commerce Commission, meaning a saving of \$60,000 to local growers for the coming season. The old rates were \$10 a car higher than the eastern rates from Bakersfield, and the Salt River Valley now is on at least a parity with icing charges for melons from Southern California eastward.

BUSINESS PHILOSOPHY
BY WILLIAM FEATHER
A LABOR-SAVING device may temporarily dislocate a few men, but its real and important result is to increase the output of the nation, to increase the stock of goods for division, and of this stock labor takes three-fourths.

The people of a nation cannot divide more than they produce. There is no guaranteed standard of living. The standard is determined by the united production of all the people.

Our standard in the United States is high because we have a rich country, the best tools of new nations in the world, and probably the best management and the best labor.

The production here per person is higher than anywhere else; the product being greater we have more to divide. As long as we keep this firmly in mind, and use it as a working basis, we are assured of prosperity and progress in which each one of us will share.

THE INVESTOR
(Copyright, 1926, by New York Evening Post, Inc.)
NEW YORK, April 20.—Feldman does the investing public have an opportunity to purchase a higher class public utility preferred stock than was presented recently with the offering of \$5,000 shares of Southeastern Power and Light Company \$7 cumulative preferred stock.

Southeastern, through its subsidiary operating companies, controls virtually the entire power and lighting business in Alabama, as well as parts of Georgia, Mississippi and Florida. Its properties are compact and lend themselves admirably to the development of superpower systems in the South. It serves Mobile, Montgomery, Birmingham, Pensacola, Panama City, Laurel, Meridian, Hattiesburg and a host of other smaller cities in the important industrial and agricultural sections in the States mentioned.

Dividend requirements on the new 7 per cent preferred were earned more than five times in 1925. This, without including the income from the Georgia Railway and Power Company or other properties to be acquired with the proceeds from the present financing. Earnings which would have accrued to the parent company in 1925 from the Georgia Railway and Power Company had it been owned then amount to more than \$500,000, or nearly twice the dividend requirements on the new stock. Georgia Railway is being acquired through the issuance of securities junior to the stock under consideration.

Bankers interested in the sale of the securities, as well as the management of the properties, declare the future of the South promises constantly increasing earnings. They believe the current trend of industry is southward and the demand for electricity, both commercial and domestic, to be on the increase.

Properties of the Southeastern, exclusive of the Georgia Railway and Power Company, are estimated at \$12,000,000. After deducting all bonds and stocks ranking prior to the new preferred, there is a net value in property value of more than \$600 a share on that issue. Based on current market quotations, the equity represented in securities ranking junior to this issue is in excess of \$70,000,000.

Eighty-six per cent of the company's revenues, including those of subsidiaries, is from the sale of electricity. Gas revenues contribute 3 per cent of the total, and traction 1 per cent. Four per cent of the earnings are from miscellaneous sources.

The Alabama Power Company, which is the largest operating subsidiary of Southeastern, owns extensive properties in the so-called Birmingham district. This district was its prominence primarily in the rich mineral deposits found in the immediate surrounding territory, and the estimates of the United States Geological Survey indicate that the deposits of ore, coal and limestone assure the future of the iron and steel industries in that section for many generations.

High-tension transmission lines connecting other subsidiaries of the Southeastern with the Alabama Power Company, are being constructed, which are expected to broaden the market for the output of the latter company.

The Southeastern preferred stock was offered at 98 1/2, to yield about 7.10 per cent. At that price it should prove attractive to investors.

Stability and Yield
Invest in
\$6.50 Cumulative Preferred Stock
of
Associated Gas & Electric Co.
(of New York)

1: Stability
Over 85% of the net operating revenues of the System is derived from Electric operations.

The properties, situated in 12 Eastern, Southern and Middle-West States (including New York and Pennsylvania), also the City of Manila, P. I., serve numerous medium-sized business enterprises rather than a few large ones.

Also, the proportion of residential customers, whose use of Electricity is constantly increasing, is large; and the communities served, 1,000 in number, have a population estimated at 2,000,000.

In 1921, a year of general deflation, this Company's net earnings increased approximately 85% over 1920.

Group Operation
Stability is further assured in that this is a Group-Operating Company. The advantage of Group Ownership of public utilities selling Electricity lies in the fact that economies of operation are effected. This is the positive trend of the times. In 1918 there were reported to be 6542 separate electric generating plants in the United States, whereas today there are about 4800—a decrease of 36%. Yet the total output of kilowatt hours has more than doubled.

2: Yield
Price 93 and accrued dividends
Yielding about 7%
We recommend this stock for investment.

OUND LUNCHEON
WILL HONOR
BOARD MEETING
Federal Reserve Bank
Will Meet Local Bank
on Friday Noon
Edward H. Cunningham,
Walter L. Eddy, member and
reservist, respectively, of the
Reserve Board, will be guests
of honor of a luncheon, given
by the board and Federal Reserve
agent, and John U. Callahan, president
of the Federal Reserve Bank
of San Francisco, at a luncheon
Friday noon at the California Hotel.
Approximately thirty-five
attend the luncheon. It is expected
that short addresses will be
made by Cunningham and Eddy,
who are making a tour of the
Federal Reserve districts of the
United States, and by Callahan,
in connection with a general
business session of the board.
The luncheon will be held at
the California Hotel, 1000
Washington.
Mr. Cunningham, a former
stockman of Iowa, is the
former representative of the
Federal Reserve Bank of San
Francisco, and has served in that
position since 1922. Mr. Eddy,
has his headquarters in Wash-
ington, D. C.
Mr. Newton, formerly a
member of the Los Angeles branch
of the Federal Reserve Bank, was
recently made chairman of the
board and Federal Reserve Bank
of San Francisco district in
John Tarrin, resigned.

TRADE WITH SOUTH GROWS

Increased Quantity of Lumber and Machinery Moving to Cuba and South American Ports

Demand for Pacific Coast forest products, canned salmon, canned fruits and vegetables, flour and articles of manufacture in the south-eastern States, Cuba, the Caribbean and South American countries is increasing at a favorable rate, Sam Y. Knight, district manager of the McCormick Steamship Company in Los Angeles, said yesterday.

The world at large is recognizing the importance of oil well machinery to Venezuela, Mr. Knight said, "as is evidenced by the mounting figures of our foreign trade. Pacific Coast lumber is to be found in every part of the world, and the number of ships calling each year to load our forest products is increasing.

Development of trade with South America, Cuban, South Atlantic and Gulf ports is showing an outstanding gain, Cuba, especially, is showing a marked improvement in her purchases from the Pacific Coast. In 1924, the trade of the United States with the island republic exceeded \$560,000,000, the overwhelming amount of which was carried on with the Atlantic seaboard. With the recent establishment of direct sailings from the Pacific Coast, we are permitted to and are claiming a rightful share in this prosperous market.

Lumber from the Pacific Northwest continues to furnish the bulk of freight moving south-bound, although there is considerable machinery being shipped to South America ports, Mr. Knight stated. A large amount of farm machinery is moving to the agricultural sections of South America, along with considerable road building equipment. There is also a heavy move-

OIL EARNINGS GAIN

NEW YORK, April 20.—Net earnings of Phillips Petroleum Company for the quarter this year were \$2,127,144, after depreciation and depletion charges with \$1,248,481 in the first quarter of 1925.

The Wheeler, Osgood Co.

First Mortgage 6% Gold Bonds

Secured by Net Assets of the largest door factory in the world—valued at more than four times this issue. The company has a record of 30 years of successful operation.

Certified earnings from 1922 to 1925, inclusive, after all prior charges and liberal allowance for depreciation, averaged 7.3 times interest requirements on this issue.

Priced \$8.50, to Yield About 6.15%

(BY A. P. MONT WIRE)

NEW YORK, April 20.—Following is the complete closing list of today's transactions in stocks on the New York Stock Exchange:

The day's news was largely constructive in character, one of the chief developments being a further easing of money rates. The Atlantic Coast Railroad declared an extra dividend of \$1.50 and the common stock dividend of the Columbia Gas & Electric Company was raised from \$2.00 to \$2.50 annually. French bankers agreed to another new loan of \$100 million, a working basis had been reached for the settlement of the French debt to the United States.

The first of the March railroad earnings statements to make their appearance compared favorably with those of the same month last year. The Union Pacific reported gross of \$15,905,760 and net of \$2,667,791, as compared with gross of \$14,913,401 and net of \$2,034,419 last year. The Kansas City Southern reported gross of \$14,498,898 and balance after taxes of \$2,444,592 as against \$11,751,540 and \$2,464,350 in March, 1925.

STEELS IMPROVE

An overnight study of Chairman Gary's remarks on dividend policy and business conditions at the Steel Corporation apparently allayed earlier fears, the common stock closing higher at 11 1/2 after having touched 11 3/4. Crucible and Republic Steels each advanced over a point, and the other independents improved fractionally.

Pool operations were aggressively conducted in local fractions in anticipation of favorable developments regarding the Erie Railroad and new subway construction. A temporary outburst of strength in March preferred was associated with rumors that negotiations were nearing completion for the sale of the White Star Line boats to British interests.

CONSTRUCTIVE OPERATIONS

also were apparent in a number of specialties. Pullman was bid up over 6 points to 16 1/2, closing a point below the top, on buying interest by reports of a special dividend distribution. Revival of activity in Consolidated Distributors reflected the announced extension of the company's radio and automobile supply business with recently obtained new capital.

SMELTER SLUMPS

Federal Mining and Smelting common broke 16 points to 10, a new low record for a year, on a Delaware court decision overruling the company's demerger to a suit brought to prevent the company from paying a special dividend of 10 on that issue. The preferred stock rallied 4 points to 78, but lost nearly half its gain. Substantial net gains were recorded by Consolidated Cigar, Dupont, Air Reduction, American Waterworks, California Packing, Chicago Pneumatic Tool, Ciba Company, May Department Stores and National Lead, all up 2 to 4 points.

United States Rubber sank to a new low level for the year at 8 1/2 and then crossed 60 for a small fractional gain on the day. Weakness also developed in Childs Company, the Commercial Solvents issues, Remington Typewriter and Ward Baking, all of which were narrowed down or leveled off.

Metals and jewelry closed at a point higher and the other showings fractional. Commodities were irregular. May wheat dropped 3 cents a bushel to 1.15 1/2, but the other showings only narrow changes. Cotton trading was quiet with final quotations 1 point lower to 7 1/2. Sugar prices were unchanged. Coffee eased 1 1/2 points.

All money renewed at 4 per cent as against 4 1/4 yesterday and held steady at that figure all day. Loans in the "outside market" were reported to be available as low as 3 and 3 1/4 per cent. Time money was quoted at 4 1/2 to 4 3/4 per cent, with some thirty-day loans reported as low as 4 1/4. Prime commercial paper rates were unchanged.

Establishment of another new low level by French franc at 23.26 cents and a drop of a half cent in Polish zlotys to 10.60 cents, featured the irregular foreign exchange market. Demand for sterling held firm around \$4.85 1/2-15. The Canadian dollar was quoted at a premium of 2-2 1/2 to 11-64 of 1 per cent despite the shipment of over \$5,000,000 in gold to Canada.

JAPANESE MAGNATE HERE FOR VISIT
Head of Large Company Greeted by American AthleteIn City for Two-Day Stay
Left to right—T. N. Mitsui, T. Tsumi, Mr. Mitsui, G. Kowaka, I. Sawada and Charley Paddock.FOR PLAZA UNION DEPOT
Civic Center Association Asks Joint Rail Terminal;
Opposes Elevated Alternative

Voicing disapproval of the railroad's plan for miles of elevated tracks on the downtown streets, the Civic Center Improvement Association last night passed a strong resolution in favor of a union terminal depot at the Plaza site. The meeting was presided over by George E. Strong, president of the association. The resolution follows:

"That the construction of a City Attorney Whitehead, the association passenger station at the Plaza site as ordered by the Railroad Commission constitutes the best plan for serving the public and would relieve the traffic congestion on Alameda street.

"That all large cities in the United States are working toward the unification of their passenger stations.

"That more street car lines reach the Plaza district and more passengers can be distributed without the necessity of a transfer than at the railroad proposed sites.

"That allowing the street railroad to carry out their plan of building four and a half miles of elevated structures would be not only a financial loss to the city but a detriment to the city.

"That the building of a union depot at the Plaza site would eliminate grade crossings and be the greatest step toward the relief of traffic congestion that has so far been undertaken.

"That the stand taken by the Los Angeles Times is not only just for the benefit of the entire city.

"Therefore be it resolved that this association go on record in favor of the proposed Plaza union terminal depot.

"Another recent endorsement of the project is that of the North-West Improvement Association at a meeting addressed by Assistant City Manager.

OF 3 SPELLING MARVEL
Japanese Prodigy Can Read and Write, Too, and He Proves It to Reporters

On Saturday from 2 to 5 o'clock members of the local Y. W. C. A. will attend at "Out-of-door Party" at South Park, 1515 First street, and South Park avenue. A program has been arranged. It includes a talk by Paul E. Waterhouse, lecturer and traveler. He will speak of "Preserving the Peace of the Pacific." Several musical numbers will be presented by members of Y. W. C. A. groups.

Jimmy's father, J. S. Ito, who runs a rooming-house at 549 Ceres avenue, brought his wee, black-eyed prodigy into the editorial offices of The Times yesterday. Without hesitation, serious and unsmiling, the tiny Japanese boy spelled all the old times—cat, rat, dog, book, bank, eye, ear, nose—and topped off the exhibition by spelling correctly garage and locomotive. When he performed the last feat, two, three and many a time, he spelled the word "locomotive." Jimmy added up a column of small figures. He repeated the alphabet. And while he was doing all this in English, he talked quietly on the side in Japanese to his proud father.

According to his father, Jimmy knew his A B C's when he was three years and three months old, and could read three months later. He knew at sight and can read or spell more than 200 words, most of them learned through imitative mimicry.

"When we go riding," he explained, "he points out words on street signs that they are, I tell him and spell them once, and he seems never to forget. He goes to a private school next year and give him a real chance to develop. He's no young, 2 years and 11 months old, to enter even the kindergarten."

T. W. C. A. TO HOLD PARTY
On Saturday from 2 to 5 o'clock members of the local Y. W. C. A. will attend at "Out-of-door Party" at South Park, 1515 First street, and South Park avenue. A program has been arranged. It includes a talk by Paul E. Waterhouse, lecturer and traveler. He will speak of "Preserving the Peace of the Pacific." Several musical numbers will be presented by members of Y. W. C. A. groups.

JUSTICE HALL
CHARGE HINTED

Grand Jury Asks Advice on Accusing Official

County Body Given Penal Code as Guide

Conferees Plan for More Courtroom Windows

A request from the county grand jury yesterday for the competent legal advice on the proper procedure to follow in moving an accusation against a public official gave greater strength to persistent reports that a public official may be indicted or formally accused in connection with the construction of the new Hall of Justice.

Just from whom the grand jury requested the legal advice was not divulged. It was reported on good authority, however, that the jury was handed a resume of sections of the Penal Code dealing with the accusation or indictment of public officials. The report covered the various offenses for which a public official may be indicted. It also included directions for procedure in bringing formal accusation against a public official by the grand jury rather than an indictment.

PLAN MORE WINDOWS
Another angle in the investigation into the construction of the Hall of Justice cropped out again yesterday when a conference was held by Superior Judge Keene with the Allied Architects, designers of the exterior of the building, and the County Counsel. The purpose of the conference was to discuss the plan for more courtroom windows.

MAGNATE ASSAILS
STREET INVASION

E. L. Doheny

STATE AIR
PROGRAM
PROPOSED

Conference to Meet Here to Devise Assistance for Commercial Aviation

A State-wide conference to devise a practical program for the development of commercial aviation and air commerce, will be conducted at the Alexandria Hotel, under the auspices of the California Development Association. William M. Garland, vice-president of the association, announced the meeting on the eve of his departure for Europe and said representatives of banking, oil, express, motion picture and mail order interests, governments, bureaus, civil organizations, hotels and resorts and chambers of commerce will be present. Among problems to be considered are adequate landing fields and necessary facilities for aerial voyagers, and the education of business men to the benefits of commercial aviation.

"All metropolitan areas of the future will necessarily be off the beaten path of swift commerce unless suitable landing fields are provided," he said. "Municipal officials must be awakened to the responsibility of keeping their communities abreast with commercial progress. Just as good roads have increased the utility of the automobile, so must landing fields stimulate the development of aviation. People do not understand how high the safety factor of flying has gone, how dependable airplanes are today.

"It is easy to see, however, the great benefit to business in cutting down the time between Los Angeles and Seattle to a ten-hour run as against the fifty-one-hour time by train, with comparable time between intermediate locations."

TIRE PROMOTER ACCUSED

City Prosecutor Issues Complaints in War Opened on Asserted Endless Chain Schemes

City Prosecutor Friedlander yesterday declared war on a dozen or so asserted "endless-chain" schemes now operating here. He issued complaint charging Fred C. Rogers, promoter of the so-called "Nir Rubber Company of America, 216 South Figueroa street, with obtaining money under false pretenses, false promises and violation of the recently validated city ordinance concerning the operation of such enterprises. Further complaints against similar organizations have been in progress for several months.

According to the investigators, Rogers' operations have embraced the whole Pacific Coast, and plans were under way to give his dealings a national scope. During that same time, the prosecutor asserted, Rogers had collected something like \$100,000 from clients. The issuance of complaints yesterday was at the instance of J. S. Torrance, former assistant city prosecutor, and now representing an organization of Rogers' asserted dissatisfied investors who are seeking the return of their money.

Action similar to that of the City Prosecutor has been taken by the District Attorney of Riverside county.

DOHENY RAGES
AT COUNCILMEN

Fiery Address Delivered on Improvement Plan

Proposed Artery Would Cut Deep Into Property

Former Defiance in Oil Fight Brought to Attention

The opening and extending of Fremont street south of Washington street, and the lines to be followed, was taken under advisement yesterday by the Street Opening and Widening Committee after a public hearing featured by the fiery address of E. L. Doheny, oil operator.

Mr. Doheny has a handsome house and grounds in Chester Place. One of the routes under consideration, according to the statement of Chairman Barnes, would go through Mr. Doheny's greenhouse. Councilman Shaw, a member of the committee, said that the engineering department already disapproved this line, but Mr. Doheny, who was accompanied by a pair of lawyers, addressed the committee anyhow.

DEFIED COUNCIL BEFORE
His remarks were prefaced by the statement that thirty-four years ago was the last time he appeared before the Los Angeles Council. He said he had built the foundation of his fortune. He said he was opposed by Tom Savage, then Councilman from the Eighth district.

"Tom Savage said the Council would pass an ordinance declaring oil wells a nuisance," said Mr. Doheny. "I knew more law than he did. I am a law-abiding citizen, but I won't let any law that infringes my Constitutional rights. I defied them to pass any law that would take away my property."

"I am unalterably opposed to having a major traffic artery cutting up my property. I've brought more money into Los Angeles than any other man, and if that street is put through there I won't live in my town house—I'll move out to my ranch in Beverly Hills and the city will lose the benefit of my money."

"I've heard that in these major improvements individual opinions aren't considered, but in this case individual opinion must be considered. You must listen to Mr. Kerkoff, Mr. Wiley and myself."

BRENDAN STATEMENT LIES

Chairman Barnes asked Mr. Doheny if he had not previously indicated he would be favorable toward Fremont street running back of his property.

"It's a lie," screamed the oil operator, lashing out with his fist and pounding the table. "I'm a good neighbor to good neighbors, but I'm a damned bad neighbor to bad neighbors."

After the hearing adjourned Mr. Doheny shook hands with Councilman Barnes. Both smiled and Mr. Doheny was overheard to say: "When I'm excited."

It was presumed that he tendered an apology.

The lines for Fremont street between Washington street and Alameda street were approved by the committee and will be reported to the Council.

Residents of St. James Park appeared and protested against the use of the park in the Fremont street line.

SOLICITORS CONDEMNED

Resolutions condemning "professional solicitors" selling window placards commemorating Memorial Day and other patriotic holidays were passed yesterday by the Los Angeles City Interim Council of the American Legion. The council denied that the Legion has incited such solicitation.

By a vote of 11 to 3, the Council yesterday ordered the change of name of Plymouth Boulevard back to Virginia Road, the name by which it was known before it was made Plymouth Boulevard at the request of the postal department.

STREET NAME CHANGED

By a vote of 11 to 3, the Council yesterday ordered the change of name of Plymouth Boulevard back to Virginia Road, the name by which it was known before it was made Plymouth Boulevard at the request of the postal department.

AUNT HET

BY ROBERT QUILLER

"I didn't keep up with the sermon much. The preacher got to talkin' about how awful hell is an' I got to thinkin' about Pa's folks."

The soldier of fortune who answers to the name of Het is a foreigner in a foreign army to kill men for money, glory or excitement belongs on the gallows.

Second place went to Margaret Thomas, who spoke on "The Constitution," and third place to Frank Phillips, who chose the same subject. The other debaters were Thelma Nighswander, John White and Alice Stern.

NAMES OF JUDGES
Judges of the contest were Alfred Benishmal, principal of Polytechnic Evening High School; Thomas A. Benishmal, City Attorney; and Carl S. Patton, pastor of the First Congregational Church.

This is the first time young Middleton has entered the National Oratorical Contest though he has been interested in public speaking and debating during his entire high-school career. He is a senior and his ambition is to become a lawyer.

Nearly one-half the districts in the South and California have now conducted their eliminations and are preparing for the final event. The group contest will take place on the evening of May 7.

Most of the remaining district eliminations are scheduled for Friday evening and the schools that have not yet selected their champions for this event are hastening to do so.

The Lancer

by Harry Carr

SOME educated person has written me asking me to say something about a William Shakespeare, who is about to have an anniversary, or something.

I also strive to please, so here goes:

"Nice old Shakespeare."

INTERESTING EXPERIMENT

To retreat from the last, there is this I really could say: This interesting theatrical experiment in Pasadena, very strongly hints to us what acting must have been like in Shakespeare's time.

TOUCHING THE AUDIENCE

The Playbox isn't the Community Theater, as many people think. It is literally a theater in a parlor. The audience sits in the living-room of what used to be an ordinary bungalow; and the actors perform the play at arm's length from the audience. Right in the middle of the same room.

This brings back something of the conditions of Shakespeare's time, when part of the audience sat on the stage.

CAN'T YELL

It brings into being an entirely new stage technique, although, as I say, it is probably the oldest technique in the world.

Acting of the modern stage is built like a painting in a frame. That is to say, designed to be seen entirely (and heard) from one side—one angle. This play-box technique is more like sculpture. It is directed at an audience entirely surrounding the actors.

It goes without saying that the actors have to stop shouting—cut out conventions like walling out "Nev-ah, nev-ah, nev-ah," when they mean never, never, never. And speak in an ordinary, natural way.

THE INTIMATE TOUCH

To me it explains why some of the wonderful but hard-to-listen-to speeches in the Shakespeare plays "got over." The audience was near enough for intimacy. So it may have been that acting in Shakespeare's time was more natural and simple than anything since—until the movies with their close-ups came along.

THE COPS

The little scrawled letter signed by 200 children asking to have a well-loved cop retained at their school.

This is significant. These children who hang on to the big mitt of the corner cop twice a day as they come from school are having it driven into their consciousness to regard policemen in an entirely different light. If they have half a chance at home, they will grow up to think of him as their friend—and themselves as his friend and co-operator in enforcing the law.

SOLDIERS OF MURDER

The soldier of fortune who answers to the name of Het is a foreigner in a foreign army to kill men for money, glory or excitement belongs on the gallows.

Second place went to Margaret Thomas, who spoke on "The Constitution," and third place to Frank Phillips, who chose the same subject. The other debaters were Thelma Nighswander, John White and Alice Stern.

GIRLS HELD FOR BLACKMAIL QUIZ

Two Men Also Arrested in Long Beach Inquiry

L. A. Day Charges Effort to Trap Him in Room

Accuser Likewise Detained on Stories of Four

By a "Times" Staff Correspondent
LONG BEACH, April 20.—Two women and two men are under arrest here as a result of what the police describe as an attempt to blackmail Loring A. Day, 35 years of age, of 1232 West Thirtieth Place, Los Angeles. Day is a trucking contractor. He also is being detained because of counter-charges made by the other four prisoners.

Albert S. Radre, 31, is booked for investigation of blackmail. Richard J. Rook, 35, for investigation of conspiracy; Dolly Emmons, 19, and Dixie Chilson, 19, for investigation, with no crime specified.

DAY TELLS STORY

According to the story told by Day to Detective Sergeant Le Barron and Hanner, Day met the two women about a month ago and took them to his home at 1232 West Thirtieth Place, Los Angeles. Day is a trucking contractor. He also is being detained because of counter-charges made by the other four prisoners.

POLICE ON WATCH

Day said, according to the officers, he endeavored to keep the appointment, but missed connection with the two men, and then decided to appeal to the police. The detective advised him to make another appointment and he did so for Monday. Monday afternoon, the officers saw Day meet Radre here and handed him \$100 in identifiable bills, while the officers watched from concealment.

When the detective appeared, according to the story, Radre threw the bills away and attempted to run, but was captured. He was given an opportunity, police said, to telephone, calling up Rook, at the officers' arrest. Rook said the conversation was finished.

According to the detective, Rook made a statement naming the two girls and they were arrested this morning. The four then made charges which caused the detective to arrest Day, it was declared.

The whole matter was laid before Dep. Dist. Atty. Clark, in charge of the Long Beach office, and he is expected to decide today what steps to take in the case.

When Radre was searched at the police station, according to the officers, Day's unmarked check for \$1000 was discovered in his hand.

Harvard School Head Scheduled to Lecture Here

Dr. Roscoe Pound, dean of the Harvard law school, will deliver a series of lectures during the summer session at University of California, Southern Branch, it was announced yesterday. He will also assist in the group conferences in connection with the Institute of Public Affairs to be held July 4 and 5.

Dr. Pound was formerly a member of the Commission of Appeals of the Supreme Court of Nebraska. For the past fifteen years he has been professor of law and head of the Harvard law school. Lectures courses have been given by him at Cambridge University, as well as in many colleges and universities in this country.

The subjects of Dr. Pound's lectures here will be announced later.

SEAL REJECTS CIVILIZED LIFE

Returns to Sea When Wound is Dressed

Baby Amphibian

THE comforts of civilization were too much for the baby seal which, injured and exhausted by loss of blood, climbed aboard the gangplank of the U.S.S. Relief, battle fleet hospital ship, two days ago. Last night, when a member of the Relief's crew attempted to cover the young amphibian with a blanket, he dived into the bay and did not return.

The young bull seal was first found on the Relief's gangplank with a deep cut under his left flipper, believed to have been inflicted by a motor launch propeller. He was taken aboard the hospital ship and his wound had been taken in. He refused to remain in the sick ward, however, and insisted on wriggling his way to the bottom stage of the gangplank, from where he disappeared.

United Harbor Plan Backed by Hollywood Body

Following a discussion of the two harbor measures, the board of directors of the Hollywood Chamber of Commerce formerly approved Propositions No. 5 and No. 6 on the April 20 ballot. It was announced yesterday.

Members of the board pledged themselves to urge all members and friends of the Hollywood organization to poll a heavy vote for the two measures.

Burt A. Heiny, executive secretary of the Greater Harbor Committee of 200 of the Los Angeles Chamber of Commerce, explained the merits of the two propositions.

He pointed out that the future growth of the harbor depends on building the outer breakwater. This, he said, could be hastened when Los Angeles and Long Beach harbors are merged into one port district under single management.

Proposition No. 5, he explained, provides for an exchange of sixty-two acres of land at Deadman's Island with the Federal government. The land, he said, would be used as a site for the erection of quarantine and immigration stations.

Downs's Brother Gets Judgment in Paving Deal

Million William Downs, brother of Charles E. Downs, former Councilman who was convicted of accepting a bribe, yesterday obtained a judgment of \$1000 in Judge Craig's court against Mrs. Lulu Atkinson, executrix of the estate of the late Lynn S. Atkinson, paving contractor.

Downs asserted he entered into agreement with Atkinson in 1921 whereby the latter agreed to pay him 10 per cent of the net profits realized from a contract to pave fifteen miles of highway in Kern county.

Downs asserted Atkinson realized a net profit of \$70,000 and declared he had received but \$1000 of the \$7000 due him.

DICK WICK HALL SHOWS MARKED IMPROVEMENT

Marked improvement in the condition of Dick Wick Hall, Arizona humorist and publisher of "The Salome Sun," when motorists are now at the Harvard law school. Lectures courses have been given by him at Cambridge University, as well as in many colleges and universities in this country.

The subjects of Dr. Pound's lectures here will be announced later.

City Employees Urged to Back Wilshire Zoning

Policemen and firemen were urged yesterday by Capt. L. J. McClary, chairman of the campaign for the policemen's and firemen's pay increase, to vote "yes" on Proposition 3, the Wilshire business zoning measure as he said, Wilshire business development will not alone benefit the entire city, but will directly increase the city's taxes through the increased property valuation on Wilshire Boulevard.

"We are working for a living wage for policemen and firemen," said Chairman McClary, "but we must also assist in the upbuilding of Los Angeles so that the city will grow. The business zoning of Wilshire Boulevard (Proposition 3) will mean a great development along that boulevard, and that will mean increased assessments and increased taxes for the city government. My vote on Proposition 3 will greatly assist the City Council in meeting the increased firemen's and policemen's pay directly from tax revenues."

DOWNTOWN FIRE HALTS SPRING-STREET TRAFFIC

Traffic on South Spring street was halted for thirty minutes during the rush hour last night when fire broke out on the fifth floor of the I. J. Phillips Building, 214 South Spring street, shortly before 6 o'clock. The blaze originated in a portion of the building occupied by the Dressel Cap Company. Arrival of the Fire Department averted a serious fire and use of chemicals instead of water to combat the blaze resulted in a small property loss.

SOUTHERN BRANCH IN HIGH RANK

Phenomenal Growth Puts University Here Among Ten Largest in America

Placing the University of California, Southern Branch, in the list of the ten largest universities in America, total registration figures numbering 5736 students were announced by L. A. Maverick, rector, yesterday. This enrollment includes 2115 students in the college of letters and science, 2529 in the teachers' college and 23 in the law school. The teaching staff has 250 members.

The University of California ranks first in enrollment among American universities and the phenomenal growth of the Southern Branch has been such that it is responsible for nearly half this registration.

The order of enrollment in the ten largest liberal arts colleges in the United States is as follows: California at Berkeley, 1052; Michigan, 4757; Minnesota, 3729; Texas, 3205; California at Los Angeles, 3175; Iowa, 3115; Columbia, 2792; Harvard, 2614; Columbia, 2792; and Princeton, 2083.

SOUTHLAND MAY OBTAIN AIR RACES

National Balloon Contest to be Held in 1927 if Ham and Lehr Are Victors

Southern California will get the balloon races for 1927 if the City of Los Angeles wins the national balloon races the 29th and 30th at Little Rock, Ark. in which it has been entered by Lieut. Walter A. Ham and Lieut. R. F. Lehr.

The winner will represent America in the international balloon races in Belgium this summer. To the winner of the national balloon races is awarded the honor of naming the location of the next year's race, and if the City of Los Angeles captures first place the race in 1927 will be held here.

Justice Hall Charge Hinted

Into the Big Pine County Park at that time. When called upon to testify yesterday Clark is reported to have declined to stand ground that he has as clients persons who are interested in the situation and claimed immunity as an attorney holding privileged information from such clients.

Dist. Atty. Keyes, Dep. Dist. Atty. Richardson and Supervisor McClary, were among others who visited the grand jury room yesterday.

Foreman Carter, at the conclusion of yesterday's session, refused to discuss the matter of the receipt of legal advice on grand jury procedure in removal of public officials. He said the investigation is progressing and that it will be taken up again at the next session, Thursday. He added that some definite action may be expected shortly after the grand jury's session.

Section 154 of the Penal Code provides that an accusation to be presented by grand jury. An accusation in writing against any district, county, township or municipal officer in office may be presented by the grand jury of the county or in which the officer accused is elected or appointed.

The procedure under the above section does not require a strict application of the rule that government cannot sue itself. The main purpose of the accusation and proceedings is to remove a person from public office for misconduct in such office. The misconduct charge need not necessarily include an act which would in itself constitute crime, and if it does include conduct constituting a crime a judgment on the accusation which can go only to the extent of removal from office would not constitute a bar to subsequent prosecution for such crime.

TIRE PROMOTER FACES CHARGES

Other asserted misrepresentations is based the charge of false advertising.

In the sale of tires represented to be constructed with spiral holes which in reality were pierced with straight holes—the sale being made to Mr. Torrance for \$40—brought the charge of obtaining money under false pretenses.

PROMISES ATTACKED

Investors in the Roegge enterprise assert that while they money was paid in cash, the promised two-year guarantee on the life of the tires, regardless of mileage, has failed to materialize and that in fact the average life of the tires is not more than sixty days, and in some cases only ten days.

The investigation for the City Prosecutor was conducted by Assistant Prosecutor Krowl and Deputy Police Chief and Roegge. Roegge was represented in the hearing by Attorney David Weiss.

WOMAN SENTENCED IN CASE INVOLVING GIRL

Mrs. Marie Anderson, 35 years of age, who pleaded guilty to a charge of contributing to the delinquency of Bernice Roling, 17 years of age, was given a suspended sentence of one year in the County Jail yesterday by Judge Archibald of Juvenile Court. Mrs. Anderson was asserted to have attempted to procure the girl to enter into a relationship with a man whose name was not mentioned.

\$10,000 in Cash and Prize! Just one idea of yours may be worth \$100. See full page ZAIN advertisement in Thursday's Times. [Advertisement]

THE LANCER

(Continued from First Page)

Killing men in the name of patriotism is plenty. To dash into another country's quarrel is simply indefensible.

There have been great exceptions, like Lafayette, who were actuated by a great principle. These unattached adventurers who go around fighting for fun can't hide under Lafayette's shadow.

It is a great strain on credulity to imagine anyone fighting on either side of this rough-and-tumble desert scrap for any sacred principle. Neither the Reds nor Spain nor France have much idea what they are fighting about. As the colored man said, "Jus' nervous—tha's all."

UNIONS IN NEW ATTACK ON CITY

(Continued from First Page)

accomplished. The final result, however, was the complete collapse of the strike, alone sponsored and financed in part, at least, by international eastern union offices.

Two months ago another move toward forcing general abandonment of the open-shop principle here was instituted by union culinary workers, who began an effort to make hotels operate under union rules. This movement is still being carried on and now additional forces are added to it in a movement to unionize all the bakers in the city.

Nearly all the bakers in the city are open shops, with the exception of Jewish bakers, who now are in difficulty with their union employees. Agitation are trying to get some of the bakers to strike May 1.

THORN IN FLESH

A salaried agent from the East now is here working among union bakers.

Open-shop conditions in Los Angeles are a thorn in the flesh to eastern international union officials who have closed up many trades in the East and for long time they have worked desperately to force Los Angeles to accept union control.

At the recent annual banquet of the Chamber of Commerce, its retiring president warned that a new and determined attempt fraught with utmost peril to Los Angeles prosperity now is under way to force abandonment here of the open shop and to force acceptance of unionism.

Many civic bodies have publicly declared similar sentiments and called on the community to stand for the open shop against all assaults, which for the most part have their origin in outside and envious sources.

Idiot Ham departed for Little Rock yesterday and will be followed by Lieut. Lehr Friday.

(Continued from First Page)

to give this matter their attention. MORE CHAMPIONS NAMED

Another list of champions was reported to Director Nichols yesterday as follows:

Raymond Spencer has been chosen to represent St. Agnes High School, Los Angeles. Elizabeth Brown will represent Downey Union High.

Robert Moffit is the Compton High standard bearer. He is the school's star debater and president of a student body.

Aleen Daniels will represent Burbank High School. Dwin Tabet, another crack debater, will represent Inglewood Union High School.

Drain Tabet, another crack debater, will represent Inglewood Union High School. Harry Gilvets will represent the Monrovia High School. The Monrovia Rotary Club sponsored that contest in that city, awarding the winner a trophy shield.

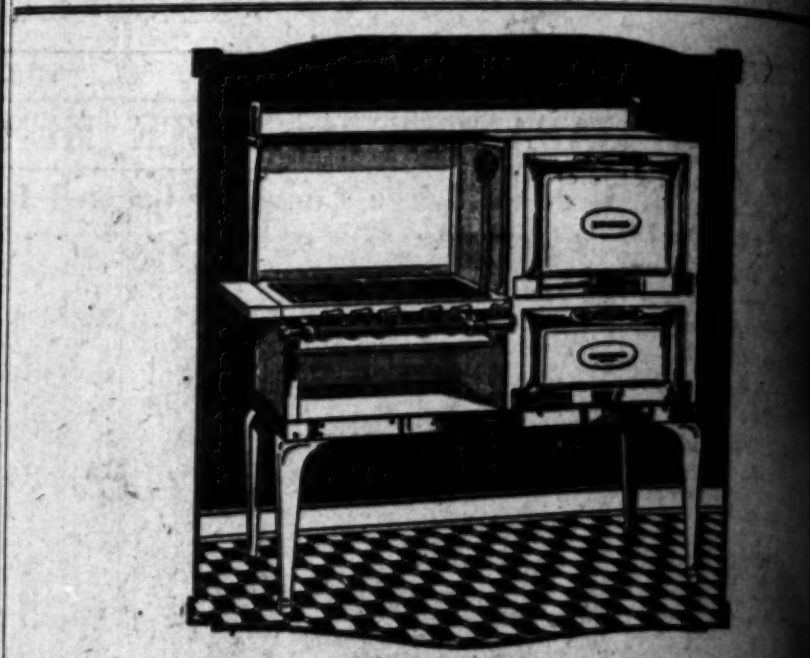

SANTA MONICA-VENTICE MEET FRIDAY NIGHT

By a "Times" Staff Correspondent
SANTA MONICA, April 19.—John McIntyre will represent Santa Monica High School when it meets Venice Union Polytechnic High School Friday night in the district contest of the National Oration Contest on the Constitution. The Bay district competition will be held in the Venice High School Auditorium.

McIntyre was first place in the contest at Santa Monica High School this afternoon. Mildred Carr and Elizabeth Henninger tied for second. Vili Casel, William Moore and Lucile Harris also participated in the contest, which was described by the judges as extremely close.

The judges were Ray R. W. Lee, pastor of the Grace Methodist Episcopal Church, Judge W. R. Garrett and Charles S. Warren. Edward Griggs, president of the high school debating society, presided.

J. M. Robinson Co.

Universal Gas Range White Porcelain, \$145

ALL white porcelain, with aluminum fused rust-proof oven linings, the Universal Gas Range sketched has three standard burners, one giant burner and a simmering burner. And, moreover, will measure up to high standards of baking performance.

The following are its dimensions:
Baking Oven—18 inches wide, 18 1/4 inches deep and 14 high.
Broiling Oven—18 inches wide, 18 1/4 inches deep and 9 1/4 high.
Cooking Top—24 inches wide, 22 inches deep and 3 1/4 high.

Gas Range finished in white porcelain with oven heat control, \$145.

Refrigerators at \$69.50

REFRIGERATORS made according to specifications which preserve the ice and lower uniform low temperature are moderate in price.

The case is of solid oak, the lining of the food compartment of seamless porcelain, the ice compartment of galvanized tin with a capacity for 75 pounds.

10 walls of insulation are the protection against heat and keep food in perfect condition. Dimensions measuring 35 inches wide by 20 inches deep by 47 inches high. Priced at \$69.50.

Famous Streets in Los Angeles Carry Flood of Traffic

Los Angeles has more concrete streets than any other city in the country—a total of over 220 miles.

All of these streets are carrying a steadily increasing volume of traffic, and are doing so with very little maintenance.

Some of them are famous thoroughfares representing the most advanced type of paving construction.

They include Vine Street, "The Highway of the Movie Stars," Franklin Avenue, one of Hollywood's fine residential streets, Calumet Avenue, the main artery leading into Los Angeles from the San Fernando Valley and Hill Street from Washington to Santa Barbara Avenue.

Los Angeles is building more concrete streets every year. The latest of these is Pico Boulevard. This, when completed, will be from 34 to 66 feet wide throughout its entire length of seven miles.

It will pay other cities and towns to make a careful study of Los Angeles' advanced practice in permanent paving.

Property owners and land owners are invited to write to the office for the facts. Also ask for your copy of our free booklet on "Concrete Streets."

"... I never used a pen
I liked so well! What kind
is it?"

THERE'S something about the
very feel of a Swan Eternal
Pen that just appeals to every-
body. That's one reason why
successful salesmen, the sort
who know how easy it is to
make or break a sale, always
carry a Swan Pen. It's an ally
—and it never lets you down.

If you could see a Swan Pen
made, you would understand
the cause of its superiority.
No other fountain pen is
made with such care, such
skill, such patience. As jew-
elry is fashioned, so Swan Pens are
made, with precision, accuracy, lov-
ing attention to detail. Some of
the men who make them have been
at their work for fifty years!

No wonder that the Swan
Eternal Pen performs so faithfully,
so unflinchingly. No wonder that
men in every type of business com-
ment on its qual-
ities when first

they start to use it. There is no
other fountain pen that can com-
pare to a Swan. Its very appear-
ance tells of the thoroughbred.

Today try a Swan Eternal Pen
at any high-grade dealer. You'll
know in a moment that never be-
fore have you used such a truly fine
pen. An investment of \$5 or \$7 or
\$9 will bring complete satisfaction
through a lifetime of writing.

FILM COMEDIAN OBSERVES BIRTHDAY

Little Daughter Presents Bouquet to Him as Her Gift

Many Happy Returns, Daddy!
Mildred Gloria Lloyd offers present to father while mother looks on.

MAID REPORTS LOSS OF GEMS AT STUDIO

The loss of jewelry valued at \$1500, which she had hidden under a rug in one of the offices of the United Studios, 5541 Melrose avenue, was reported to the police yesterday by Louise Thompson, said to be employed as a maid by Dolores Del Rio, motion-picture actress. Miss Thompson, who lives at 230 East Forty-fifth street, told Detective Lieutenants Carmen and Haak of the Hollywood division she hid the jewelry when she had to leave the studio on an errand. On her return it was gone. The jewelry is Miss Thompson's property, according to police.

FATHER AND SON HELD ON BAD-CHECK CHARGE

J. H. Mays, 40 years of age, and his son, Virgil, 25, were arrested yesterday by Deputy Sheriffs Heller and Shultz on charges of passing worthless checks at San Diego. The arrests here were due, the officers said, largely to the cleverness of Mrs. Anna Davis, proprietor of a San Diego hotel, who is said to have cashed one of the asserted worthless checks. Mrs. Davis wrote to Virgil Mays here, and made a date with the young man. When he kept it, officers were waiting, also.

"HAPPY BIRTHDAY, DADDY."

To the world at large yesterday it may have been just April 20, but to the immediate family of Harold Lloyd it was the birthday of the man who made horned rims famous. Little Mildred Gloria Lloyd, who will celebrate her third birthday a month from today, was especially eager to remind her daddy of the fact, and soon after her arrival at the studio yesterday she broke up a conference of story writers employed in concocting a new picture for the comedian, while she presented her daddy with a tiny bouquet of pansies, and wished him a "happy birthday."

Lloyd celebrated his thirty-fourth birthday anniversary by helping develop the story and in the evening entertained a few of his immediate friends at his home in South Irving Boulevard.

Farmers of the Clogher Valley of Ireland have registered complaint that installation of the first telephones in this district was interfering with their use of the telegraph, which has been their only means of rapid communication for many years.

Jamaica Ginger Ordered Back to Owner by Court

Ten barrels of Jamaica ginger taken from Mrs. Sarah R. Rosenbloom, proprietor of a jobbing establishment at 1749 West Vernon avenue by Federal prohibition agents, was ordered returned to her by United States District Judge McCormick yesterday.

Action to have the Jamaica ginger returned had been instituted by Attorney Hugh L. Dickson against Col. R. E. Fink, Federal prohibition administrator here, and certain of his associates. The action denounced asserted search and seizure outrages.

Tuttle Directed Picture Under Difficulties

"The Untamed Lady" was directed from a wheel chair. Frank Tuttle had to make use of that well-known vehicle while wielding the megaphone for this new picture starring Gloria Swanson at the Metropolitan this week.

When Tuttle directed Richard Dix in "The Lucky Devil," he and the star became involved in a friendly wrestling match. As a result of this friendliness and the fact that he was outwrestled, the director suffered a torn ligament in his right leg. This necessitated the wheel chair.

TRICK-BUS PROVIDES COMEDY IN FEATURE

How many can remember the days when automobiles first made their appearances upon the streets? If you are one of those you will probably recall how many people shouted "Whoa," when they wanted to stop and out that the peppy thing wouldn't whizz.

Harold Lloyd, however, has revived the old horse terminology, and through the assistance of science has succeeded in having a gasoline vehicle obey the commands that formerly were understood only by horses.

It happened during the filming of his latest comedy "For Heaven's Sake," now being shown at the Million Dollar.

In the closing scenes of the picture a huge bus, without a driver, plays an important part.

When Lloyd wanted the bus to stop he shouted "whoa," and the bus stopped. It happened that the bus was controlled by radio, and whenever the radio operator heard "whoa," he turned some dials and the bus came to a stop.

BRITAIN HOLDS U. S. FILMS ARE "MENACE"

(BY CABLE-EXCLUSIVE DISPATCH)
LONDON, April 20.—The Federation of British Industries wants the question of the growing dominance of American motion pictures put on the agenda of the imperial conference which meets here next October.

The federation has sent a letter to this effect to Sir Philip Cunliffe-Lister, president of the Board of Trade, arguing that the subject deserves consideration by the imperial conference because the increasing popularity of the American film has had a detrimental effect on British prestige and "seriously prejudiced" the interests of the empire, especially those of the dominions where there is a large colored population.

Blanche Sweet Will Play Lead in "Diplomacy"

Marshall Neilan is to make "Diplomacy" as his initial production for Paramount. He has chosen Blanche Sweet for the star role in the picture which marks his, as well as her, re-entry into the organization with which they first gained success.

It was nine years ago that Neilan first received recognition as a director with the Famous Players-Lasky organization and it was about that time Miss Sweet was elevated to stardom by the same company.

Neilan then directed the star in some of her most popular pictures among them being "The Tides of Barnegat," "The Silent Partner," "Those Without Sin," etc.

Under his new agreement he still heads his own company, working independently at his studio on Glendale Boulevard.

Miss Sweet recently completed a contract with First National. Neilan expects to get the production under way early this week.

"WHITE COLLARS" IS CLOSING HERE SOON

This week is the one hundred and eighteenth of "White Collars" at the Regent Theater, with but two weeks remaining before the play will be permanently shelved to make way for "Charm," with Florence Roberts.

James Bradbury, Jr., who played Cousin Henry in the New York cast and is exacting the ideal role in the local presentation, is making a hit with his audiences nightly.

Owing to the fact that the piece will not be sent on tour there is increased patronage from near-by cities.

MISS TREADWAY WILL HAVE COMEDY ROLE

"Badges," now in its last week at the Morocce, will be followed by "Miss Treadway" in Her Sleep Sunday matinee.

This farce by Mark Swan centers about a lady, as played by Charlotte Treadway, whose habit of sleep-walking causes a great deal of trouble for those in the story and a lot of merriment for the audience.

JUNIOR COGHAN IN IT Junior Cogan, who is heralded as the successor of Jackie Cogan, plays a featured role in the forthcoming production of "The Sky Rocket" at the Figueroa Theater beginning the 24th inst.

New Trustees Oust Many
from Office

Housecleaning on at Hunting-
ton Beach

Leaders in Recall Election
Get Reward

(EXCLUSIVE DISPATCH)
HUNTINGTON BEACH, April 20.—Ten city employees were ousted from office here last night when newly elected City Trustees, holding the balance of power, started a housecleaning which promises to extend even further at a meeting to be held Wednesday evening. City Attorney L. W. Blodgett, City Recorder Harry Stewart, City Engineer E. M. Hillman, City Administrator J. A. Armitage and several minor officials were ousted.

The offices of street foreman, foreman of the gas department, gas-company storekeeper and instrument man in the City Engineer's office were discontinued and a new man was appointed street superintendent. C. M. Warner, former City Recorder and local justice of the peace, who was ousted from the City Recorder position nearly a year ago, when he joined in a movement to recall two members of the Board of Trustees, was restored to the City Recorder's office.

LOWER TAX RATE

Pomona Director Submits His Estimate to Council

(EXCLUSIVE DISPATCH)
POMONA, April 20.—Predicting that the new city tax rate for this year to \$2.44, as compared with the \$2.50 rate last year for each \$100 of assessed valuation, Commissioner of Finance, J. E. Adams, today informed the City Council that his estimate was based on the 1927-28 total just submitted by heads of the various departments. Possibility that the rate may be set at an even lower figure was also made known, due to the fact that none of the estimates submitted has yet come in for any deductions by the commissioner.

ACQUITTED OF MURDER

No Argument Is Offered and Jury Returns Verdict in Five Minutes

(EXCLUSIVE DISPATCH)
SANTA ANA, April 20.—A murder case submitted to the jury without argument by counsel. A verdict of acquittal within five minutes. These unique contributors to Orange county legal lore concluded the trial late yesterday of Manuel Tafuya, charged with murdering Juan Lopez in a card game at La Habra in 1918. Eight years proved too great a stretch of time for the memory of prosecution witnesses, virtually all of whom were Mexican.

**Dedicate New
Flying Field
at Imperial**

(EXCLUSIVE DISPATCH)
IMPERIAL, April 20.—Capt. Lowell Smith, around-the-world pilot, and a group of army and navy pilots from North Island, San Diego, today took part in ceremonies dedicating the new Imperial airport in this city to commercial aviation. The naval aviators, commanded by Lieutenant Commander Capt. Maj. Russell, flying a Marine Corps plane, and the Army Air Service, took part in the program, which included flying stunts and a parade of the new biplane. Mrs. Mary Farr Butler, Imperial businesswoman, dedicated the field by breaking a bottle of Colorado River water over the nose of Capt. Smith's plane.

The new Imperial field was dedicated to be one of the best landing spots in the air in the air and Los Angeles, and is to be mapped as a regular field on the southern transcontinental airway route. A commercial company has already established headquarters here.

**LOVER SEEKS
JAIL SOLITUDE**

Promises to Stay Away When
"Steady Fellow" Makes
His Call

(LOCAL CORRESPONDENCE)
ALHAMBRA, April 20.—Jack Morrison, a waiter employed at the Sunset Country Club, is going to look twice before he calls again on a girl who has a "steady fellow."

Morrison limped into the police station at an early hour today and asked for a night's lodging. He bore evidence of having been thoroughly beaten up, with his face cut and swollen.

He told the police that he had gone to see a girl in Los Angeles Monday night. Although assured by the damsel that her "fellow" was not due, the about lover suddenly put in his appearance, much to Morrison's embarrassment and physical discomfort.

Dazed and bleeding, Morrison wandered to Alhambra and sought protection for the balance of the night, vowing that he would never again play Romeo to the Juliet of some brawler.

**THEATRICAL
MAN VICTIM
OF ILLNESS**

Pneumonia Proves Fatal
to Scott Palmer, Popular
San Diego Manager

(EXCLUSIVE DISPATCH)
SAN DIEGO, April 20.—Scott A. Palmer, 48 years of age, manager of one of the leading theaters here and one of the best known and most popular theatrical managers on the Pacific Coast, died in a San Diego hospital today. Death was due to pneumonia.

Following an operation for the removal of his tonsils about a month ago, Palmer contracted a cold that led to inflammation of the head. He was removed to the hospital, where he remained about two weeks. Despite his weakened condition, after he had been removed to his home, Palmer actively managed the affairs of the theater. He suffered a relapse about a week ago and was removed to the hospital again, and it was found that he had contracted pneumonia.

Born in Morgan county, Ohio, Palmer came to San Diego as a small boy with his parents. He was educated in local schools and then attended the theatrical profession. He traveled for a number of years on the Orpheum circuit and later became a member of the famous Bostonians and the Frank Daniels Comedie Opera Company. He returned to San Diego and had been connected with the management of the leading theaters of the city for some time.

He is survived by his widow, Mrs. Wealthy Palmer, two daughters, Miss Bertha and Miss Irma, and a son, Mr. James. Mrs. Ida McCann and Mrs. E. W. Jones, all of this city except James Palmer, whose home is in Los Angeles.

LARGE DAMAGE SUIT

(EXCLUSIVE DISPATCH)
VENTURA, April 20.—Suit for \$25,000 damages growing out of a 15-year-old El Rio schoolboy, died of injuries sustained when he was knocked from his bicycle and run over by a car driven by Francis Darrow, son of Mrs. Marie Darrow of Los Angeles, last August, went on trial in Superior Court today.

On the other hand, strangely enough, the defense witnesses, also Mexicans, recalled the killing with distinctness. They clearly remembered that Lozano, who was banker of a card game, refused to pay a \$1 bet that Tafuya had won on the turn of a card, that he drew his revolver and fired the first shot and that he fired two more shots before Tafuya returned his fire.

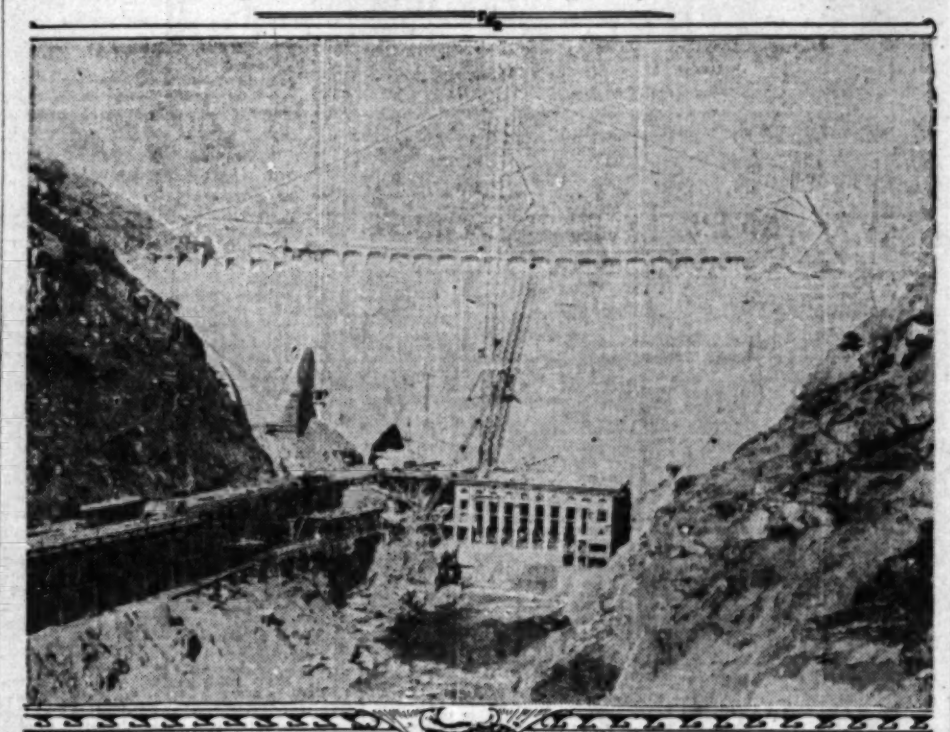

Nine shots in all were exchanged in a running fight. Lozano firing six and Tafuya three, according to the positive witnesses for the defense.

Lozano gave up his life rather than pay the \$1 that Tafuya had won on the turn of a card, that he drew his revolver and fired the first shot and that he fired two more shots before Tafuya returned his fire.

By the time the case reached the jury, Prosecutor C. N. Mosley realized that with the testimony that was available he and his team had a forlorn hope along the path of justice. He submitted the issue to the jury and asked them to deliberate. Almost immediately, the jury returned a verdict of acquittal.

STORES WATER FOR AN EMPIRE

Great Exchequer Dam Soon Ready for Actual Use

Newest of the big water-storage dams in the San Joaquin Valley, Exchequer Dam on the Merced River, the creature of the Merced Irrigation District, is nearing completion and will be available for storage of water this season. The water, as it is released from the huge reservoir, will be used to generate electric energy before being distributed to the farming territory of the irrigation district. The entire project will cost more than \$15,000,000 when completed.

ELECTION ENTRIES CLOSE

Alhambra Candidates Toe Mark for Annual Race for Municipal Offices

(LOCAL CORRESPONDENCE)
ALHAMBRA, April 20.—When the time limit for filing petitions for candidacy in the June elections expired at midnight last night, seventeen aspirants to municipal and school board offices were on record in the City Clerk's office. Four city officials and two members of the Board of Education are to be chosen June 5.

For the presidency of the City Commission Chris Campbell, present incumbent, will have a clear field, no opponents having appeared. Likewise City Clerk R. Bruce Wallace has no opposition in his race for reelection. In the other offices, however, there will be plenty of competition.

Three are on the list for the office of Commissioner from the Third District, now held by Dr. Guy S. Archer. They are Dr. Archer, B. R. Ivins, president of the Alhambra Realty Board, and Dr. E. C. Brown, a retired physician. For the office of City Treasurer six candidates are in the field: Mrs. E. W. Deane, Mrs. J. E. Jenkins, Mrs. C. A. Davis, and J. E. Elliott. The latter was formerly Police Chief here.

Two vacancies are to be filled on the Board of Education, one for a four-year term and the other for a two-year term. The longer term vacancy was filled by the late Mayor John L. Bacon, discharged by the Board of Education. The shorter term vacancy was filled by the late Mayor John L. Bacon, discharged by the Board of Education.

Following the removal of Tam Deering by the commission yesterday, Mayor John L. Bacon discharged William E. Harper and Mayor Bacon was not at the City Hall today and has not announced the names of the new playground commissioners.

MEASLES FATAL

Epidemic of Child Disease in Ventura County

(EXCLUSIVE DISPATCH)
VENTURA, April 20.—The second infant death in twenty-four hours from measles, an epidemic of which has spread over the county for the first time in years, came today. The child was Horatia Elwell, 7-month-old daughter of Mr. and Mrs. Elwell of Front street.

That the measles are mild in form, for the most part, resulting fatally only when complications arise, is the statement of health authorities. Infants, they say, are particularly susceptible to the infection. No cause for alarm is seen by local health officials, the cases being scattered and light.

While many have been stricken with the malady throughout the county, only the two fatalities have been reported. In Moor Park the entire school was exposed, and for this reason did not close, while the Avenue school, three miles north of the city, near the oil fields, was closed for a week to stamp out the infection.

**HUSBAND REPORTS
HIS WIFE IS GONE**

(EXCLUSIVE DISPATCH)
VAN NUYS, April 20.—The new limited train from here to Los Angeles has begun operation, leaving here daily at 8:30 a.m. and reaching the city at 7:15 a.m. The trip, made in forty-nine minutes, tops off sixteen minutes of the former schedule.

Van Nuys people who have to get to Los Angeles early each day are taking advantage of the train.

TEACHERS BUILD YOUTH

Raising of Ideals Keynote of Addresses Made by School Men in Convention

(By a "Times" Staff Correspondent)
PASADENA, April 20.—To build character and to train the ideals of modern youth along the best channels were painted as the outstanding tasks of high-school leaders today by speakers who addressed the 400 delegates at the second day's meeting of the annual State high-school principals' convention meeting here at the Hotel Huntington.

**ELECTION
RIOT CASE
IN COURT**

La Habra Man Held for
Trial on Charge of Assault
With Deadly Weapon

(EXCLUSIVE DISPATCH)
SANTA ANA, April 20.—William Noble, asserted leader of a group arrested in La Habra on the night of April 15, and charged with rioting, today was held to answer by Justice E. B. Morrison at a preliminary hearing of assault with a deadly weapon with intent to commit murder. A second count on which Noble also was held was assault with a deadly weapon. Bail was fixed at \$1000 cash or \$10,000 property bond.

City Marshal L. Martin of La Habra was the prosecuting witness against Noble, and gave the only testimony presented at today's hearing. He recounted the events of election night in La Habra, when Noble and other harnessed rioters attempted to storm the polling place. The crowd clashed with Martin and his deputies and, according to Martin, Noble attempted to use a gun on him.

MAKES NO COMPLAINT

Son of Famous Actor Out of From Estate

(EXCLUSIVE DISPATCH)
SANTA ANA, April 20.—Henry Miller, Jr., son of Henry Miller, actor, who died in New York recently, said today he has no intention of making any effort to break the will of his father which, according to word received here, was filed in New York today. The will names as heirs Gilbert Miller, brother of Henry Miller, Jr., and his sister, Mrs. Tim McCoy.

URGES CONSERVATION

Speaker Says Pasadena Was Saved From Destruction

(By a "Times" Staff Correspondent)
PASADENA, April 20.—The city of Pasadena came within twenty minutes of destruction during the Tujunga forest fire of last July, declared Harold I. Cruzen, chairman of the legislative committee of the Conservation Association of Southern California in an address before the Pasadena Optimist Club today.

THE REAL OLD WEST

Ventura Plans Great Rodeo to be Held at County Fair Grounds May 2

(LOCAL CORRESPONDENCE)
VENTURA, April 20.—The days when vaqueros were heroes in Ventura county will be re-enacted on Sunday, May 1, in a huge rodeo to be staged in the Ventura county fair grounds at Seaside Park under the auspices of the fair association, with the cream of local riders pitted against the best "buckeros" from all parts of the State in thrilling competition for cash prizes.

**FLORIST SHOW OPENS
IN PASADENA TODAY**

(By a "Times" Staff Correspondent)
PASADENA, April 20.—This city's twenty-first annual flower show will open here tomorrow for a three-day exhibit in quarters at the corner of Broadway and Broadway. Entries of both the conventional and unusual types of flowers and plants will exceed those of any previous spring show, according to officials of the Pasadena Horticultural Association, which is sponsoring the display.

**Capt. Adams to
Head Newport
Beach Police**

(EXCLUSIVE DISPATCH)
NEWPORT BEACH, April 20.—Capt. David L. Adams, for more than twenty years associated with the Los Angeles police department, was last night selected Chief of Police of Newport Beach, at a salary of \$350 a month. Adams will fill the vacancy left by the recent death of J. A. Porter, who died as the result of a suicide attempt.

**POMEROY IS MAYOR
OF SAN FERNANDO**

(LOCAL CORRESPONDENCE)
SAN FERNANDO, April 20.—Immediately after taking the oath of office last night the new City Council proceeded to ballot on the choice of Mayor, and Floyd A. Pomeroy was elected by a landslide. Mr. Pomeroy is the only hold-over on the Board and his selection as Mayor was a surprise to many.

HEADS ROTARY CLUB

(EXCLUSIVE DISPATCH)
MONROVIA, April 20.—Harry Kellogg, prominent local business man, was elected president of the Monrovia Rotary Club at a noon luncheon today. Hal Eastman, William J. Ellery and William J. Channess were chosen as directors.

**COTTON

OUR HISTORY IN PICTURES

389

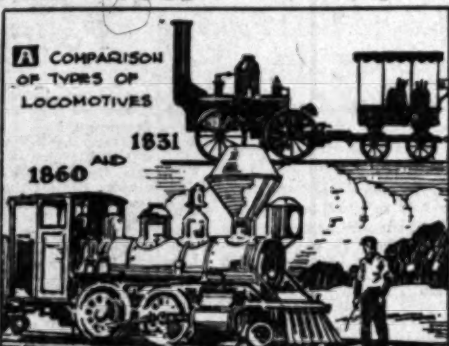

Railway Progress—1860.

by J. CARROLL MANSFIELD

© McClure Newspaper Syndicate

IN 1860 THERE WERE BUT 6,000 MILES OF RAILWAYS IN THE UNITED STATES. AN ERA OF RAILROAD BUILDING BEGAN IN 1880 AND BY 1890 16,500 MILES OF NEW TRACKS HAD BEEN LAID. DURING THIS PERIOD THE GREAT LAKES REGION AND THE OHIO RIVER VALLEY WERE LINKED BY RAIL WITH THE ATLANTIC SEABOARD.

THE INCREASED TRADE THAT FOLLOWED THE OPENING OF THESE NEW CONNECTING LINES RESULTED IN THE IMMENSE GROWTH OF THE LAKE CITIES CHICAGO, BUFFALO, CLEVELAND AND MILWAUKEE.

THE FEDERAL GOVERNMENT STIMULATED RAILROAD BUILDING BY GRANTS OF PUBLIC LANDS TO THE BUILDERS. THIS POLICY WAS BEGUN IN 1850 WITH A GRANT TO THE ILLINOIS CENTRAL RAILROAD.

THE EARLY RAILWAYS WERE SHORT LINES. IN 1850, THE RAILROADS BEGAN TO CONSOLIDATE; SEVERAL SMALL ROADS MERGING TO FORM A SINGLE LONG LINE UNDER ONE MANAGEMENT. THE NEW YORK CENTRAL WAS FORMED BY THE CONSOLIDATION OF A GROUP OF SMALL LINES.

These daily history strips make a unique pictorial history of America.

Hundreds are clipping them daily and pasting them in scrapbooks.

WESTERN LEAD TRADING AIRED

Witness Says Julian Both Bought and Sold

Disposed of More in Day Than He Acquired

Testimony Continues in State Investigation

Testimony appearing to show that C. C. Julian made large purchases and large sales of Western Lead stock on the same day was given yesterday before the State Corporation Commission at a continuation of the hearing to determine whether transactions in the stock locally are unfair and inequitable. The hearing will go on again next Tuesday.

Francis P. Graves, a broker, questioned by Deputy Commissioner Adams, testified he purchased for Julian's account on March 17, last, 132,350 shares of Western Lead. A. W. Morris had sworn in previous testimony that on March 17 he had sold for the account of Julian 134,650 shares of the same stock, and it developed, though Deputy Adams said he did not wish to stress it, that Graves purchased 97,900 shares that day from Morris.

A. L. Jamison said that on February 4 and March 20, last, he bought for Julian's account 48,163 shares of the stock and sold for the same account 54,512 shares. Gordon Lindstrom, a broker, said he purchased stock for Julian in January at 85 cents a share, while the market price was 11 to 12 1/2 cents a share; he paid with a check to C. C. Julian & Co., he said, believing the check was cashed. Later, he said, Julian told him it was a personal transaction.

Julian sought to explain this evidence of apparent "wash sales" by calling A. J. Murray, a clerk, who testified Julian regularly buys and sells stock for various persons but makes no brokerage charge. Questioned by Deputy Adams, he said the books of the Western Lead concern are not in Los Angeles.

Ray T. West, another Julian witness, created something of a sensation by declaring an investigator for the Corporation Commission had promised to notify him a day ahead of any impending investigation so that "if it was going to rain I could get under cover."

John E. Jardine and Sidney H. Ellis of the board of governors of the stock exchange said they had voted against the filing of Western Lead stock and said they had never bought or sold any of the stock.

Lewis S. Parsons, another governor, said he had voted in favor of the filing, but had not owned any of the stock.

U. E. Miller, chief clerk of the traffic department of the Tonopah and Tidewater Railroad, denied that he had promised to notify Julian a day ahead of any impending investigation so that "if it was going to rain I could get under cover."

John E. Jardine and Sidney H. Ellis of the board of governors of the stock exchange said they had voted against the filing of Western Lead stock and said they had never bought or sold any of the stock.

Lewis S. Parsons, another governor, said he had voted in favor of the filing, but had not owned any of the stock.

RECALL OF MAYOR TO BE SOUGHT

Santa Monica Head Under Fire as Bond Vote Sequel; Chamber Chief in Ring

By a "Times" Staff Correspondent
SANTA MONICA, April 20.—Petitions to recall J. C. Steele, Commissioner of Public Safety and ex-officio Mayor, will be put in circulation tomorrow. It was learned definitely today. Herman Michel, president of the Santa Monica Ocean Park Chamber of Commerce, proprietor of the Santa Monica Dairy Company and president of the Marine Bank of Ocean Park, is the candidate of the recall forces.

"My hat is in the ring," Mr. Michel said tonight. "I am not backed by a number of members of the committee which worked for the Clover Field bond issue at the recent election. Steele's opposition to the purchase of Clover Field for a municipal airport and park purposes is said to be the principal reason given for the proposed recall."

"I seem to be charged with opposing the Clover Field bonds and also with having stood in the way of progress," said Mayor Steele tonight. "From the outset I frankly and openly opposed the Clover Field bond proposition because I did not regard it as a wise investment for the city. When they talk of progress, I believe I can show more actual progress during the two and one-half years I have been in office than came to Santa Monica during the twelve previous years."

"I have never been tied to any clique or political coterie and have never let any political manipulators handle me. In event of a recall election I am put in the position of becoming a candidate or resigning. I have no intention of resigning."

The petitions will require about 350 signatures for a recall election.

MUSIC CLUB DELEGATES WELCOMED

Reception Opens Annual Convention at Ocean Park; Business Sessions Today

By a "Times" Staff Correspondent
SANTA MONICA, April 20.—The eighth annual convention of the California Federation of Music Clubs opened tonight with a reception in the Municipal Auditorium at Ocean Park, given by the local convention board. Delegates from all parts of California were welcomed by Mayor Steele.

Mrs. Joseph Zuckerman of Venice, chairman of the local board, and Mrs. Abbie Norcross of Los Angeles, first vice-president of the federation, a musical program was given. The Women's Choral Club of Pasadena and the Orpheus Club of Los Angeles also participated.

The convention proper will open at the Miramar Hotel at 9:30 a. m. tomorrow and continue through the week. Mrs. Jamison will preside in the absence of the president, Mrs. Lillian Birmingham, who is in a San Francisco hospital with a broken arm.

Reports of committees and officers will be given tomorrow morning. A convention session also will be held in the afternoon, and a concert given at the Municipal Auditorium tomorrow night.

Chamber Enjoys Annual Banquet at San Fernando

Music, good fellowship and speechmaking enlivened the annual banquet of the San Fernando Chamber of Commerce last night.

The banquet was held at the Tilden Hotel, with more than 200 persons present. Among the guests of honor was the twenty-four-hour-old Mayor of San Fernando, Floyd A. Fomero.

The principal speaker was Leslie R. Henry, Pasadena banker, whose subject was "America, the World's Cashier." President H. H. Dace of the San Fernando Chamber of Commerce spoke on "Our Chamber."

Included among the guests of honor were Col. R. H. James, medical officer in charge of United States Veterans' Hospital at San Fernando; and William Radcliffe, administrative officer.

F. W. Prince told of the opportunity of San Fernando. Miss Tilden, soloist of the Los Angeles Opera Company, and Mrs. William Radcliffe sang. J. W. Muehley was the toastmaster.

RUNAWAY TO BE ALLOWED TO KEEP JOB

Youth Who Disappeared on Day After Christmas Wins Parental Forgiveness

When a runaway boy is found, usually he is hustled back to the parental roof without ceremony to face woodshed conferences and peevish lectures on his misdeeds. But Bernard Geraghty, a young spalpeen, 17 years of age, who left his mother's house at 458 Holland avenue the day after Christmas with his whereabouts unknown until yesterday, when he was located in San Francisco, had no such experience.

Mrs. Geraghty was so relieved when she heard her son was found and that he was learning the machinist's trade, that she sent word not to arrest him. She understood. There are five other boys in the Geraghty family, the twins, Leonard and John, 6 years of age; Robert, 12 years of age; Frank, 15 years of age; and William, who recently arrived at his majority.

Bernard was found in a machine shop yesterday by Detective Collins. Collins asked him why he ran away and he replied: "There were no jobs at home and little money coming in. I thought I'd get out and shift for myself and send some money home as soon as I could."

"He's the most promising apprentice I've ever had," said the shop foreman. "I'd hate to lose him."

Small-Town Idea Called Obstacle to Unified Port

Sanction of a unified port district in principle, but suspicion of its administration in practice, was voiced at a dinner given at Robal last night by Frank A. Vandervort, president of the San Pedro Chamber of Commerce, to directors of that chamber and the chambers of commerce of Wilmington and Long Beach.

Small-town prejudices are handicapping the cities surrounding the harbor, according to speakers, who not only took themselves to task but also asserted Los Angeles cherishes a similar limited viewpoint.

"Prejudice, discrimination, exorbitant prices for industrial sites, branch banking and community selfishness were set forth as deterring the district's advancement. The railroads, it was charged, are playing one community against another and treating the port district as a poor step-child, aided and abetted by interests trying to centralize all industry in Los Angeles."

Dr. E. E. Helms Well Enough to Go on Vacation

So complete has been the recovery of Dr. E. E. Helms, pastor of the First Methodist Episcopal Church of Los Angeles, from a recent nervous breakdown, that he will leave within the next two or three days for an extended vacation, accompanied by Mrs. Helms.

This announcement was made last night by Dr. R. R. Mason, his physician, and Dr. E. C. Lettall, associate pastor, who further declared Dr. Helms has been voted a vacation for such time as is necessary for him to recover sufficiently to warrant his return to the pulpit.

While Dr. Helms has been advised by his physician to remain in seclusion for at least three months, Dr. Lettall declared he expects the church head to return within six weeks. Dr. Helms's destination will be kept secret, according to Dr. Lettall.

Billy Quirk of Early-Day Film Life Succumbs

Billy Quirk, comedian with the old Biograph Company, died at the Virginia Rest Home, 5315 Virginia avenue, last night. He had been ill for about two years.

Quirk was about 45 years of age. He had not acted for the screen for the last eight years, friends said last night.

The body was taken to the L. Roy Bagley Undertaking Company, 5445 Hollywood boulevard, where funeral arrangements will be made today.

Quirk's widow, it was reported last night, is on the road with the "So Long Letty" company.

VETERANS MEET TONIGHT
Los Angeles Unit No. 107, United Veterans of the Republic will hold a regular meeting this evening at 546 South Hill street. The meeting will be addressed by Mrs. Susan M. Dorsey, superintendent of Los Angeles public schools.

CITY GIVEN PRAISE FOR INDUSTRIES

James H. Collins Declares Growth Represents Fusion of Brains, Labor

Congratulating Los Angeles on its remarkable industrial growth in the last ten years, James H. Collins, writer on business topics, in an address to the Advertising Club at the Biltmore yesterday said that an industry is not so much a tangible something to be acquired and exchanged as it is a product and symbol of the combination of intelligence and labor.

Citing briefly the history of California for the last century, Mr. Collins explained how the state's great canning industry had its birth following the gold rush when the farmers were compelled to resort to some means to save their surplus products.

"The increase in the number and activities of your various industries has been steady and phenomenally swift since the days of '49," said the speaker. "Your success has been due not so much to the influx of capital as to the coming of men whose wisdom and work have created this industrial and agricultural empire of the West."

Another speaker was George H. Barnes, president of the American Reformation Association, who pleaded for a practical observance of Reformation Week, declaring that the replanting and care of forests is one of the vital issues of the present day.

HAMBURG TO REACH PORT HERE MAY 17

German Navy Training Ship Will Leave Canal Tomorrow for Los Angeles

The German cruiser Hamburg, first vessel under the black-and-red naval ensign to visit the Pacific since the World War, will sail from the Canal tomorrow en route to Los Angeles Harbor, where she will remain for a fortnight after her arrival on May 17.

The Hamburg is a small craft of prewar design, was retained by Germany as a naval training ship and she is carrying 200 officers and midshipmen on a cruise around the world.

The battleship squadron was busy yesterday with the final stages of anti-aircraft practice. Anti-aircraft practice was fired by the U. S. West Virginia, U. S. Colorado, U. S. California, U. S. Nevada, while the U. S. New Mexico, U. S. Mississippi and U. S. Idaho were firing broadside spotting practice. The final spotting practice of anti-aircraft practice scheduled will be fired today. The battleships Arizona, Mississippi and Idaho will fire the aerial exercises and the West Virginia will fire the spotting practice.

Old Friends Join Pair at Golden Wedding Party

Relatives, friends and neighbors, some of them from the old home-land in Virginia, gathered last night at the home of Mr. and Mrs. H. W. Kilpatrick, Jr., of New York, to join them in the celebration of their fiftieth wedding anniversary.

Mr. and Mrs. Kilpatrick were married in Washington, Va. Several years ago they came to California, where Mr. Kilpatrick obtained cattle interests in the San Joaquin Valley near Bakersfield. Four years ago they retired and settled down to spend their remaining years in ease at their little Palm Springs home.

With them at the celebration last night were two of their six children, Mrs. J. H. Bacon of Palm Springs and Mrs. Homer Johnston, and two of their twelve grandchildren, Billy and Martha Bacon, and their daughter, Mrs. G. E. Ruckstall of New York, were absent from the golden anniversary celebration. Mr. and Mrs. Roland Curran, grandchildren, and their three children, who are great grandchildren, had hoped to come here from Bakersfield, where Mr. Curran is postmaster, to attend the celebration but were detained.

State Market Plans Praised by Accountant

Praise for the unity and apparent possibility of California's co-operative marketing associations was voiced last night by Clinton H. Scovell of Boston, Mass., in addressing more than 125 members of the Los Angeles Chapter of the National Association of Cost Accountants.

Other speakers included Orra E. Monnette, president of the Bank of America, and H. M. Thompson, president of Thompson, Cooper & Thompson, and Raymond D. Blight, president of the Los Angeles chapter of the National Association of Cost Accountants. Mr. Scovell is president of the association.

A business session was held yesterday afternoon at the Los Angeles Chamber of Commerce rooms. Mr. Scovell will review business conditions during his stay in Los Angeles and Southern California.

Murder Trial of Assorted Killer of Aunt Blocked

The murder charge against James Dewey Hart, accused killer of having killed his aunt, Mrs. Ellen E. Philner, was removed from the calendar in Municipal Judge Ballard's court yesterday.

The case was set for hearing yesterday, when Dep. Dist. Atty. Heinicke requested its removal from the calendar, saying Hart has been found insane by a lunacy commission and ordered committed to Patton.

Hart, at the lunacy hearing before Judge Gates, demanded a jury trial.

The body of Mrs. Philner, who was 52 years of age, was found under a cot in her home at 832 East Fifty-first street, the 6th inst. She had been struck on the head and strangled.

ASPIRANT FOR QUEEN DEBARRED

Ticket-Scalping Charge Brings Disqualification of Exposition Maid Contestant

Elita Thompson, a contestant for queen honors in the California Maid Exposition being conducted this week at the new Shrine Auditorium, last night was barred from competition according to the announcement of Manager-Director Gardner, because she had been found guilty of ticket-scalping operations in her behalf were said to have been discovered.

"While Miss Thompson is undoubtedly innocent of the entire affair, we had no alternative other than to disqualify her, temporarily at least, because there was no way of checking which are bona fide votes," said Mr. Gardner. Two youths were taken into custody for employing asserted fraudulent methods, but were released at the University station when Mr. Gardner expressed a wish to ascertain who, if anyone, employed them.

MASONRY TO HEAR TALK ON SCHOOL PROBLEMS

The topic "Is There Anything the Matter With Our Public Schools?" will be discussed by Assistant Superintendent of Schools Finley at a meeting to be conducted under the auspices of five Masonic lodges of Southern California at the Los Angeles High School at 8 p. m., the 27th inst. The Masonic Fraternity annually observes Public Schools Week. Officer Monnette, president of the Bank of America, will preside.

Miss Gladys Dodsworth, an Englishwoman, recently carried off by the first prize and the first certificate ever issued to a woman in the final examination for incorporated accountants, beating no fewer than 224 men and four other women.

How to make

TEA

correctly

Be sure you use

India Tea, or a

blend containing

India Tea.

Use an earthen-

ware teapot, and

put into it one

good teaspoonful

of India Tea for

each cup of tea

required.

Be sure you pour

the water into the

teapot the moment

it boils. Only fresh

boiling water can

bring out the true

flavour of the tea.

Hot water is noise.

Water that has

been boiling for

some time does not

give the best results

This is important if

you want a really

good cup of tea.

Allow the tea to

stand 5 minutes to

infuse. Put a little

cream or milk into

each cup before

pouring out the tea.

It greatly improves

the flavour. Then

add sugar to taste.

Be sure you use

INDIA

TEA

a blend

containing

India Tea

**RECOUNT ASKED
IN BARNES CITY**

Claude H. Hartman, Defeated
for Trustee, Files Contest
Charges Board Did Not Count
Forty-eight Ballots
Also Asserts Oath to Carry
Out Duties Not Taken
A recount of the votes cast in the first municipal election conducted in Barnes City was asked yesterday in a contest of the election filed in Superior Court by Claude H. Hartman, a candidate for Trustee of the city, who charged the election board with guilty misconduct and failed to count forty-eight ballots cast by voters of the new municipality. The contest was aimed at Edgar D. Goode, Mrs. Florence Hipert, John B. Olson, Walter W. Rhodus and Louis M. Staab, declared to have been elected Trustees by the election board, and Perle R. Landin, declared to have been elected Treasurer of the city. The election around which the contest was held was the 13th inst. In his contest Hartman asserted that of the forty-eight votes he charged were not counted were cast for the candidates declared elected, and the remaining forty-eight were cast for other candidates. These latter candidates included himself, Elma M. Hillier, Parfrio J. Machado, Albert Stonehouse and Robert M. Watt, sought to be elected Trustee, and Bowen F. Hanco, candidate for Treasurer. Had the forty-eight ballots in question been counted, Hartman said, he and the other candidates who were declared defeated actually would have been elected. Hartman also asserted the election board failed to take an oath faithfully to perform the duties imposed upon it by law in connection with the election. The contest was filed by Attorney C. A. Linderman.

JOIN ART COMMITTEE

Bishop Cantwell and Rabbi Magin
AM Stillwell Collection Purchase
Bishop John J. Cantwell of the diocese of Los Angeles and San Diego, and Rabbi Edgar F. Magin of Temple B'nai B'rith, have accepted invitations to become members of the Citizens Art Committee, which is planning to raise \$250,000 to purchase the Stillwell art collection in New York for Los Angeles. "I have hoped for some time that this most valuable collection would find a permanent home in Los Angeles," said Bishop Cantwell. "Such a collection would help to satisfy the patriotic desires of those who wish to see Los Angeles take a place of leadership in culture and artistic civilization." "The Stillwell collection would be a real asset to our Los Angeles," stated Dr. Magin. "A city, like an individual, cannot be deprived of culture and inspiring influences."

**LOST BABY SAFE AT
HOME OF RESCUER**

Highland Park police had a lively search yesterday for missing Henry Miller, 2 1/2 years of age, of 1451 Drysdale avenue, until he was discovered at the home of Mrs. B. B. Burdeth, 440 Hanson Drive. The child had been missing since 4 p.m., Monday, when he was seen at Drysdale avenue and Huntington Drive. Mrs. Burdeth said she found the baby wandering on Pasadena avenue, and as he was unable to tell his name or where he lived, she took him home for the night.

**LEWISON NOT SEEKING
COURT APPOINTMENT**

Joseph L. Lewison, attorney, with offices at 214 West Seventh street, who has been mentioned as a candidate for one of the two vacancies on the Superior Court bench, yesterday announced that he is not in the race for the appointment. Mr. Lewison declared that while his name has been mentioned by a number of his friends and had been called to the attention of Gov. Richardson, he is not seeking the position, and due to his private practice would be unable to accept even if offered it.

**STOCK FARM
WINS THIRD
MILK AWARD**

Adohr Dairy Tops List of
Contestants Coming from
Fifteen States
Winning over all contestants in the certified-milk contest conducted by the American Association of Medical Milk Commissioners at its annual convention at Dallas, Tex., Adohr Stock Farms of Los Angeles yesterday registered its third successive victory in national milk contests.
With a score of 95.3 per cent purity, Adohr milk topped the list of contestants. Thirty-one dairies from fifteen States competed. Adohr was awarded first prize, blue ribbon and loving cup, and Chicago Granger Farm, of Illinois won second prize, with Aberdeen Home Farm, New York, third. Adohr Stock Farm, with 1890 head of stock, now has the largest herd of Guernseys in the world. Two other national first prizes have been won by Adohr, at Atlantic City in 1925, and at San Francisco in 1926. Its record of continuous high percentage in milk-scoring contests has never been equaled.
The record of Adohr for high percentages in milk-scoring contests includes the following: Los Angeles, Liberty Fair, 94.8 per cent; Chicago, National Dairy Show, 95; San Fernando, Los Angeles County Fair, 1925; Sacramento, California State Fair, 95.3; Los Angeles, city health department, 95.3; Portland, Pacific Live Stock Exposition, 95.6; Stockton, Pacific Slope Dairy Show, 95.4; St. Louis, American Medical Commission, 95.2; San Francisco, American Association Medical Milk Commission, 95.3; Atlantic City, American Association Medical Association, 95.5; Pomona, County Fair, 95.2.

**JUDGE WILL
LEAD PARTY
INTO HILLS**

Expedition to Seek Exact
Spot of Early Monument
in Land Litigation
Not to be outdone by various research expeditions to the Arctic, subArctic and Antarctic, Superior Judge Collier decided last night to promote one for Los Angeles. The jurist, accompanied by lawyers, court attachés, litigants in a suit on trial in his court and interested spectators, will go out to a spot on the Hollywood hillsides at the upper end of Fuller avenue, seeking the evidence of a survey monument placed there in 1878.

The point to be determined is the exact location of the marking, according to Atty. Harry A. Chamberlain, representing Carmen R. Runyon, complainant in the legal action. Originally, Mr. Chamberlain said, the surveyor's monument was placed by William P. Reynolds in 1878. The original marking remained, he said, until 1924, when it was supplanted by a pipe. George Allen, who first occupied the land on a patent, is credited with the capture of Valques, notorious early-day California bandit. Mr. Runyon owns 150 acres at the head of Fuller avenue and seeks to establish the exact northwestern corner of his holdings through the proceedings. Defendants in the action being Hill Realty Company, Gurdon W. Wadles and the DeWitt-Blair Realty Company.

**Council Delays
Claim Payment
to Contractors**

Before the Council will vote to pay the claim of Contractor Will F. Peck for 11878 for work on the Pico-La Brea storm drain, which claim Controller Myers has refused to allow, a complete report on the matter must be placed before that body by the Board of Public Works. Controller Myers was supported by the Finance Committee. Mr. Myers declared that Peck put up a bond of \$2500 by which the city street maintenance division was to repair the holes in the roadway with permanent paving. Later it was decided to do an oiling job, as this stretch of territory will be permanently improved under other proceedings. The cost of the oiling roadway was 11878 less than the permanent job, and Peck filed a claim for the additional money. It was pointed out by Myers that the property owners in the assessment district had already contributed the funds, and if Peck got the money it would be a duplication of payment. The suggestion was made that the 11878 be placed in a trust fund for the permanent improvement of the intersection.

**Venice Denies
Desire for All-
Night Dancing**

Declaring that the owners of the public ballrooms of Venice do not desire and have at no time desired all-night dancing, these Venice amusement men yesterday forwarded to President Blinnbaum of the Police Commission a letter declaring that should Proposition No. 1 (Venice Sunday dance ordinance) be adopted at the April 29, election, they will ask the commission to adopt a regulation prohibiting all-night dancing. The letter which was signed by Thornton Kinney of the Abbot Kinney Company, and by the Lick Pier Company said: "At no time have the public ballrooms of Venice sought nor will they ever seek to exploit all-night dancing. It is the sincere wish of the ballroom owners of Venice that should Proposition No. 1 carry, thus permitting Sunday public dancing in Venice, the Board of Police Commissioners adopt a ruling barring all-night dancing."

**LOCAL BANK
PLUNDERED
BY ROBBERS**

Bandit Gets \$2000 from
Pasadena Avenue Teller's
Cages and Flees With Pal

Two bandits, one of whom remained outside the bank and kept an automobile engine racing for the getaway, held up the Arroyo Seco State Bank at 2009 Pasadena avenue yesterday afternoon and escaped with \$2000 cash.
The bandit who performed the stick-up work was described as a short, powerfully built man, with dark hair and eyes and about 20 years of age.
He entered the bank when no patrons were present, drew a revolver and forced Doyle S. Cox, assistant cashier; Mrs. Elizabeth Newers, stenographer, and Mrs. Florence Cox and Hayden Allen, book-keepers, to stand with their faces to the wall while he reached through the two tellers' cages and stuffed his pockets with currency.
A group of small boys were threatened by the bandit with his gun as he left the bank. One of the boys ran to a filling station near by and telephoned the Highland Park police. Officers arrived too late, however, to trace the flight of the hold-up men.

HONOR PART MASTER

A reception and entertainment in honor of Past Master James G. Scarborough, Jr., recently honored with the position of inspector of the Seventy-ninth Masonic District, will be given by members of Southern California Lodge No. 278 today.

**Rex B. Goodcell
Entertained by
Pasadena Elks**

Rex B. Goodcell, candidate for Governor, was a special guest last evening at the meeting of Elks of Pasadena. A program was given in his honor and he responded with an informal address. Yesterday at noon he was the speaker before the City Club at Anaheim, his topic being "Some Things California Needs."
Two addresses will be made today in Long Beach by Mr. Goodcell. At noon he will address the Retail Druggists' Association, and at 6:30 p.m. will speak before the Associated State Societies of that city, the members of which will be the guests of the Native Sons of the Golden West at a dinner meeting. Word was received from Sacramento to the effect that Secretary of State Jordan will support Mr. Goodcell.

**Driver in Fatal
Wreck Serving
Out Fine in Jail**

Harry Senter, who pleaded guilty to a charge of operating a motor vehicle while under the influence of liquor, was fined \$300 or offered the alternative of serving 150 days in the County Jail yesterday by Judge Craig. Senter was unable to pay the fine at the time sentence was pronounced and was remanded to the Sheriff to serve time in the jail at the rate of one day for each \$2 of the fine he is unable to pay.
A charge of manslaughter made against Senter in connection with the death of James Harold Benner was ordered off calendar at the time Senter entered his plea. According to Senter, he picked up Benner and was taking the latter to his place of employment when Senter's automobile crashed into a truck, resulting in Benner being fatally injured.

SCAGLIOLA—Hard, polished
plaster work, imitating marble,
granite or other stone.
GESSO—Base reliefs done in
gypsum or plaster of Paris;
often painted or gilded.
SGRAFFITO—Fine or rare
raised work, done in plastering,
as a frieze, panel or border.

**"Scagliola, Gesso, Sgraffito"
they all spell "Plastering"**

Pompeii was famous for the beauty of its plastering. Here the arts of scagliola, gesso, sgraffito, and impressed and relieved work, were developed to a very high plane. And it is largely because of the excellence of the plaster which covered the buildings of ancient Pompeii, forming a shield through which the volcanic ash could not penetrate, that the beauties of this buried city have been preserved to us.

IN YOUR new home you may require nothing more than simple, plain plastering. But your work will be done by craftsmen who understand the arts of decorative plastering as well, for this is part of the training of modern plasterers, just as it was part of the training of the plasterer who worked 1900 years ago.

And your plastering will be done as painstakingly, and it will be as lasting as that of old Pompeii, if you give your plasterer a free hand, and do not handicap him in an effort to secure a "cheap" job.

"Cheap" plastering, in the sense that it is economical, does not exist. Inferior plastering, bought at a low price, is the most expensive thing you can build into your home. Good plastering is the most economical.

Of the four major building operations which will be employed in building your home, good plastering costs least of all—barely 10 or 12 per cent of your building budget. Yet this small investment, properly used, will lend perfection to 90 per cent of all your home that is visible.

Resolve now to have good plastering in your new home; set aside enough to pay your plasterer a fair price for high-grade materials, skilled labor, and expert supervision, and you will get work of which even Pompeii might have been proud.

"You Get What You Pay for in Plastering"

There is no mystery about plastering. It is one of the most exact of the building arts. Your plasterer can positively guarantee you a good job, if you leave him free to do your work as he knows it should be done.

He knows what materials to use, what operations to employ, to secure the results you want. He knows what each detail will cost. Ask him to base his price upon a perfect job—and it will prove the most economical investment you make in your home.

What you should know about Plastering

This is one of a series of advertisements on the importance of Good Plastering, published by The New Diamond Company, solely in the interests of the building public. The entire story of Plastering—just what materials you should buy, and when you should buy them—WHAT YOU SHOULD KNOW ABOUT PLASTERING—has been made into an interesting illustrated booklet which will gladly be sent on request. Address THE NEW DIAMOND COMPANY, 1618 Alameda Street, Los Angeles.

CHUCKLES from LIFE

"What's all this Ah hears you is tellin' aroun' 'bout me bein' a reg'lar jasebel?"
"No, indeed, you is mistaken—what Ah said was you is a reg'lar jazz ball."

A Plea

(Please Send This Letter to Your Congressman)

Dear Sir:

We, your burdened constituents, beg that you have a bill drafted at once which will make it a misdemeanor punishable with a ten-year sentence for any newspaper proprietor hereafter to employ a columnist who signs his name or otherwise reveals his identity. At present every columnist, when he is not writing about himself, is writing admiration paragraphs about other columnists. As each columnist is also engaged in writing books he is obligated, in addition to writing constantly about himself and all the other columnists, to write about all the books they are writing.

We, your constituents, are tired to death of the personalities of all columnists. We therefore beseech you in the name of heaven to come to our relief at once.
